- Statewide litter prevention campaigns

Report an Environmental Issue to ERTS

The screenshot shows the Washington Department of Ecology website. The header includes the department logo, navigation links for 'Regulations & Permits', 'Research & Data', 'Blog', and 'Contact Us', and a search bar. A secondary navigation bar contains links for 'Home', 'Air & Climate', 'Water & Shorelines', 'Waste & Toxics', and 'Spills & Cleanup'. The main content area is titled 'Statewide Environmental Reports Tracking System (ERTS)' and contains the following text:

Report an environmental issue > Statewide reporting form ERTS

Statewide Environmental Reports Tracking System (ERTS)

You can also call us to report an issue. Click here to [find the phone number for the region where the issue is located](#).

If you see a spill or other environmental problem, we encourage you to report it. The sooner Ecology knows about an incident, the quicker we can act to reduce damages to our environment and protect sensitive natural resources.

Please use this Environmental Report Tracking System (ERTS) form to notify us of environmental issues in any Washington county.

Reports submitted using this form or via email are **only monitored during business hours**. If this is an emergency, please contact the Washington State Emergency Management Division at **1-800-258-5990**.

Litter Tip: Report a specific location instead of a general one.

County and State Collaboration

2024-25

Ramp Litter Cleanup Program

- \$60,000 Ecology grant
- Highway ramps

Gorst Corridor Cleanup

- In development

Private Property

If you're concerned about how a household or business is handling its garbage or hazardous waste, you can ask Kitsap Public Health to investigate.

Kitsap Public Health District

Solid and Hazardous Waste Program

Call 360-728-2235 or report online

Secure Your Load for Safer Roads

- 40% roadside litter
- +300 crashes
- 30 injuries
- It's the law (Maria's law)

Ask your friends, family, and colleagues to always secure their loads.

Secure your load as if everyone you love is traveling in the vehicle behind you.

Thank you

Caitlin Newman
