## Area Overview

Countywide models are for properties located throughout Kitsap County, rather than by neighborhood.

## Property Type Overview

The apartment property type is valued based on unit type. Units identified are: Studio, 1br/1ba, 2br/1ba, 2br/2ba, and 3 bedroom.

Economic Overview: Kitsap County Apartment rents continue to increase; vacancy remains at 5\% or less, and capitalization rates have declined.

Kitsap County has 338 parcels where apartment/multifamily is the primary use. This includes 103 parcels which are 5 to 9 units, 40 parcels with 10-19 units, 60 parcels with 20-49 units, 79 parcels with 50 or more units, and 56 condominium parcels. The income model is also applied to properties with mixed uses where the predominant use is not apartment/multifamily. The cost approach is used on projects located on residential land, new construction, or projects undergoing remodel and/or demolition.

## Valuation Summary

Approach Used: Income
Analysis and Conclusion Summary: The three approaches to value were considered.
The cost approach was given little consideration in the appraiser's final analysis. Cost approach components such as replacement cost new, effective age, and depreciation are difficult to accurately calculate in a mass appraisal model.

A market/sales comparison approach uses sale prices of comparable properties to calculate value. The market/sales approach was not applied as Kitsap County lacks sufficient, recent sales.

The income approach was selected as the best method for valuing these properties. The data used to develop our current model data was collected from our mail survey, site visits, local sales, national publications, and data supplied for review or appeal.

## Model Calibration

Preliminary Ratio Analysis: Analysis of sales resulted in a mean ratio of $86 \%$, a median ratio of $89 \%$, and a coefficient of disperson (COD) of 9.25 .

## Market/Sales Comparison Approach Data and Analysis

Sales: Range of Sale Dates: 1/1/2015 to 3/30/2017. A total of 17 local sales, and 0 regional sales, and 0 national sales were used in the sales analysis. Additional information is provided on the sales analysis data sheet.

Kitsap County attempts to review, analyze, and validate via telephone, mail, or in person interviews, all commercial sales within the county for inclusion or exclusion in our market/sales approach.

Market/Sales Rates: Sales ranged from $\$ 51,429$ to $\$ 169,915$ per unit.

## Property type: Apartment (continued)

Vacancy Data: Typical reported vacancy had a range of $\%$ to $\%$. We selected $\%$ to $\%$ for our model.
Expense Data: Typical reported expense had a range of $\%$ to $\%$. We selected $\%$ to $\%$ for our model.
