Generation method

VoteWA	4,150
Other online programs	0
PDF originating from county	0
Non-UOCAVA ballots issued electronically	647

AVU

Estimated number of paper ballots printed by AVU	0
--	---

Category discrepancy explanation

Reports run in VoteWA and in our own databases show that we have one more voter credited than counted. We know that we received four lavender envelopes that did not contain ballots, which were not caught until after the voters were credited. We have an additional voter who was credited but did not have a ballot counted, making a total of 5 more ballots credited than counted; this could be because there was an additional empty lavender envelope that we did not catch.

VoteWA discrepancy explanation

Reports run in VoteWA and our own databases show that we have one more voter credited than counted. We know that we received four lavender envelopes that did not contain ballots, which were not caught until after the voters were credited. We have an additional voter who was credited but did not have a ballot counted; this could be because there was an additional empty lavender envelope that we did not catch.
