

	KITSAP COUNTY Request for Proposal 2022-111	Purchasing Department 619 Division St., 4 th Floor Port Orchard, WA 98366 Phone: 360.337.4788 Email: purchasing@co.kitsap.wa.us
	Addendum No. 1	

TO: All Respondents

FROM: Glen McNeill

CLOSING DATE: March 11, 2022, at 2:00PM

REF NO.: 2022-111 Manufacture of Chip Rock

DATE: March 3, 2022

Question 1. *What has the county done in the past to measure the piles?*

Answer: Aggregates produced under this proposal shall be measured by the Cubic Yard. The cubic yard volume for pay quantity will be determined by AASHTO T19M &/OR cross sectioning the completed stockpile(s) of specified materials or by computation of the volume between the original ground surface and the stockpile surface using digital terrain modeling survey techniques. Survey measurements will be provided by Kitsap County."

Question 2. If the County goes with the 1618 CY Reclaimed 3/8-No.4 and the 5/16-No.4 how much quantity goes to each shop?

Answer: This material will land at our South shop location only.

Question 2. Why does the county use Cubic Yard instead of Per Ton? Cubic Yard seems to leave a lot more unknowns and questions. Per ton seems to be more straight forward in my experience. Is there anyway the county would change this to Per Ton like in 2020?

Answer: While the scale report & tickets worked well during the pandemic, the Superintendent found that the Tons did not yield the CY desired, likely related to SSD water weight. This is what drew us to cite AASHTO T19M for CY bids this cycle.
