**Letter of Intent Response Deadline:

**Proposal Response Deadline:

SECTION A. SUMMARY OF PROJECT

1. **Background:**

In 1965, the United States Congress enacted the Older Americans Act, and in 1973 the Older Americans Act Comprehensive Services Amendments established the Area Agencies on Aging (AAA). The purpose of the act is to provide assistance in the development of new or improved programs that promote the dignity and independence of older persons. AAAs are responsible to plan, coordinate and advocate for the development of a comprehensive service delivery system that includes services to meet the needs of older persons.

The designated AAA for Kitsap County is the Division of Aging and Long-Term Care (ALTC). The Division is under the authority of the Human Services Department.

2. **Goal:**

The Washington State Department of Social and Health Services Aging and Long-Term Care Administration provides flexibility to each AAA to provide behavioral health (mental health and chemical dependency) services for older adults and unpaid caregivers.

The Kitsap County Division of Aging and Long-Term Care establishes the criteria and subcontracts for these services each calendar year. Subcontracting for services includes procuring a service provider, entering a contractual relationship, receiving bills, and reimbursing for service delivery, and assessing the quality of the service provider's agency and fiscal management as well as the quality and efficacy of the services provided.

The request for proposal is to solicit a Washington state licensed mental health counselor or organization of licensed behavioral health professionals to provide home-based counseling and consultation services to individuals over the age of 60 years and their caregivers. A Washington state licensed mental health counselor with chemical dependency certification is preferred.

3. **Minimum Qualifications:**

Local governments, for-profit and non-profit agencies, and individual licensed behavioral health providers serving Kitsap County are eligible to apply.

Minimum Qualifications are:

1. Washington State licensed comprehensive mental health agency or independent licensed mental health counselor with expertise in providing outpatient counseling services to individuals over the age of 60 years and their caregiver populations.
 - It is preferred that co-occurring chemical dependency services are available.

If an agency applies, the assigned program staff must be registered or licensed counselor (including Peer Counselors) with the Department of Health.

2. Applicant has the capacity to operate the program on a cost-reimbursement basis.
3. Applicant must provide for a separate accounting for funds from different sources and demonstrate verifiable financial internal controls.
4. As required by Older Americans Act funding, the applicant will allow individuals referred for services to donate or contribute to services. Contributions are considered program income.
 - Reference Exhibit A Sample Contract for additional requirements related to federal revenue.

Responders who do not meet this minimum qualification or fail to submit a Letter of Intent shall be deemed unresponsive, will not be evaluated and no score will be assigned.

4. Scope:

The services provided include:

1. Older Adult Counseling services which will provide a home-based screening (brief evaluation), individual therapy, family therapy, consultation service and community education, as well as community referrals to individuals referred by Senior Information and Assistance and Family Caregiver Support Programs. We project approximately 100 unduplicated individuals and 550 hours of counseling and consultation, per 12 months.
2. Co-occurring chemical dependency counseling services to dual diagnosis individuals referred from Senior Information and Assistance and Family Caregiver Programs. Perform triage, outreach assessment, telephone collateral contacts, and counseling services for alcohol and other substance abuse problems.
3. Community workshops. The applicant will provide up to four (4) limited training and community education workshops concerning health and wellness, resiliency, protective factors, substance use and abuse disorders in older adults, and related topics per year.
 - One of the trainings may be substituted for a requested Division of Aging and Long-Term Care in-service for direct service staff.

5. Letter of Intent

In order to be an applicant for this Request for Proposals, the applicant must submit a Letter of Intent no later than **Friday April 21, 2023, 3:00 PM** stating the intention to submit a proposal in response to this Request for Proposals. The

If only one qualified applicant submits a Letter of Intent, Kitsap County reserves the right to substitute the bid proposal and review process with a sole-source contract process. In this event, the sole bidder will be contacted to initiate the sole-source contract process.

- G. The insurance limits mandated for any insurance coverage required by the Contract are not intended to be an indication of exposure, nor are they limitations on indemnification.
- H. The Contractor will maintain all required policies in force from the time services commence until services are completed. Certificates, policies and endorsements scheduled to expire before completion of services will be renewed before expiration. If the Contractor's liability coverage is written as claims-made-policy, then the Contractor must evidence the purchase of an extended-reporting period or "tail" coverage for a three-year period after completion of the services.

7.6 Verification of Coverage and Acceptability of Insurers.

The certificate will, at a minimum, list limits of liability and coverage. The certificate will

provide that the underlying insurance contract may not be canceled, or allowed to expire, except on 30-days' prior written notice to the County. Any certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.

- C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured, or a letter of self-insurance from a public entity risk pool which waives the requirement.
- D. Certificates of insurance will show the certificate holder as Kitsap County and indicate "care of" the appropriate County office or department. The address of the certificate holder will be shown as the current address of the appropriate County office or department.
- E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.
- F. Evidence of such insurance, as required above, shall be provided to the County at the following address:

Stacey Smith, Administrator
Kitsap County Division of Aging and Long-Term Care

Port Orchard, WA 98366

Upon receipt, the Human Services Department will ensure submission of all insurance documentation to the Risk Management Division, Kitsap County Department of Administrative Services.

- 8.1 The County may terminate the Contract in whole or in part whenever the County determines, in its sole discretion, that such termination is in the best interests of the County. The County may terminate the Contract upon giving the Contractor 10 days' written notice. In that event, the County will pay the Contractor for all costs incurred by the Contractor in performing the Contract up to the date of such notice, subject to the other provisions of the Contract.
- 8.2 If funding for the underlying project or matter is withdrawn, reduced or limited in any way after the Contract is signed or becomes effective, the County may summarily terminate the Contract notwithstanding any other termination provision in the Contract. Termination under this provision will be effective upon the date specified in the written

notice of termination sent by the County to the Contractor. No costs incurred after the effective date of termination will be paid.

- 8.3 If the Contractor breaches any of its obligations under the Contract, and fails to cure the breach within 10 days of written notice to do so by the County, the County may terminate the Contract. In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.

SECTION 9. ASSIGNMENT, DELEGATION AND SUBCONTRACTING

- 9.1 The Contractor will perform under the Contract using only its bona fide employees or agents, and the obligations and duties of the Contractor under the Contract will not be assigned, delegated or subcontracted to any other person or firm without the prior express written consent of the County.
- 9.2 If permitted to use subcontractors, the Contractor is responsible for subcontractor compliance with applicable terms and conditions of this Contract and all applicable laws.
- 9.3 The Contractor warrants that it has not paid, nor has it agreed to pay, any company, person, partnership or firm, other than a bona fide employee working exclusively for the Contractor, any fee, commission percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of the Contract.

SECTION 10. INDEPENDENT CONTRACTOR

- 10.1 The Contractor's services will be furnished by the Contractor as an independent contractor and not as an employee, agent or servant of the County. 3. **Consideration.** Total consideration payable to the AAA for satisfactory performance of the work under this Agreement is a maximum of **\$4,085,051**, including any and all expenses and shall be based on the attached Exhibit B, Budget.

4. Billing and Payment.

Special Terms and Conditions

- a. **Billing.** The AAA shall submit invoices using State Form A-19 Invoice Voucher, or such other form as designated by DSHS. Consideration for services rendered shall be payable upon receipt and acceptance of properly completed invoices which shall be submitted to DSHS by the AAA not more often than monthly.

Except for costs associated with Case Management and Nursing Services for MPC, COPES, MNIW, and Chore clients, DSHS will pay to the AAA all allowable and allocable costs incurred as evidenced by proper invoice in accordance with the ADSA approved AAA Cost Allocation Plan, Budget (Exhibit B), and Section 3, Consideration, of this Agreement. The invoice shall describe and document to DSHS' satisfaction, the work performed, activities accomplished, progress of the project, and fees.

- b. **Payment.** Payment for **Medicaid Case Management and Nursing Services**, including Medicaid State plan, Waiver, Roads to Community Living (RCL), and state-funded Chore clients will be based on a monthly rate of **\$235.38** from DSHS Allocated Title XIX/Chore funding per month for each in-home agency personal care or in-home individual provider authorized case authorized by the AAA each month. In addition, a percentage of in-home cases authorized with a service, but no personal care, will be paid at the full unit rate. (The percentage will be noted on the SFY23 TXIX Case Management billing form and SFY23 TXIX Matched Case Management billing form and may be adjusted at AL TSA's discretion).

Payment for **Core Services Contract Management** for Medicaid State Plan, Waiver, Roads to Community Living (RCL)/WA Roads, and state-funded Chore clients will be based on a monthly rate of **\$16.21** from DSHS Allocated Title XIX/Chore funding per month for each in-home agency personal care or in-home individual provider case authorized to the AAA each month. In addition, a percentage of in-home cases authorized with a service, but no personal care, will be paid at the full unit rate.

The average monthly projection of such cases over the course of this Agreement is **1,001**. The AAA will be paid for the number of actual cases authorized each month according to the payment schedule above. The legislature has funded AAAs to have a caseload ratio of **75:1**. AAAs will provide a written plan by July 15, 2022 to reach that target by January 1, 2023. The AAA may present good cause reasons and supporting data why they were not able to reach their target, such as staffing turnover or other unforeseen circumstances.

DSHS and the AAA recognize that we are balancing multiple changing factors that impact both caseload and workforce coming out of the extended pandemic. If the AAA has difficulty reaching the ratio by January 1, 2023, the AAA and DSHS will mutually work to update the written staffing plan and resolve any conditions that will cause case ratios to rise about 75:1.

If the AAA is referred and serves a WA Roads case that is not otherwise counted in the caseload above, payment will be based on the same monthly rates as above from WA Roads funding. These cases will be considered in the clinical caseload ratio. This funding will not be reflected in the contract budget or maximum consideration.

If ADS or Pierce meet their quarterly targeted net growth of New Freedom cases as described in section 1.g of Exhibit A Statement of Work, they will receive a Unit Rate enhancement of 5% for all New Freedom client cases billed during that quarter. This funding will not be reflected in the contract budget or maximum consideration.

Payment shall be considered timely if made by DSHS within thirty (30) days after receipt and acceptance by DSHS of the properly completed invoices. Payment shall be sent to the address designated by the AAA on page one (1) of this Agreement. DSHS may, at its sole discretion,

Special Terms and Conditions

The AAA shall not bill DSHS for services performed under this Agreement, and DSHS shall not pay the AAA, if the AAA has charged or will charge the State of Washington or any other party under any other contract or agreement for the same services.

- c. **Local Matching Funds:** The AAA may spend qualifying local funds on TXIX in-home case management and use it to collect additional federal matching funds. The amount of Senior Citizens Services Act funding budgeted for TXIX in-home case management in the previous state fiscal year may be carried forward into this contract and inflated by the consumer price index (CPI) used in the caseload ratio adjustment factor as matching funds to draw down additional federal match. The CPI is 7.6% in SFY23. Any additional requests for SCSA or other local fund sources to be matched must be approved by ALTSA and may require additional FTE to be purchased with these funds. A new clinical ratio or case handling ratio will be negotiated with ALTSA to draw down additional matching funds per the local matching funds schedule. If additional SCSA is proposed as a local match source, the AAA will report any impacts of reallocating SCSA funding when making the request to ALTSA.
- d. **Local Matching Funds schedule:** The AAA may increase the TXIX Requested Match as an add-on for the unit rate for each authorized in-home agency personal care case, in-home individual provider, no personal care, and New Freedom case accepted by the AAA each month per the schedule below.

If Clinical Ratio is 1:	Then State/Local	Fed Match

- e. The AAA shall complete and submit the attached Local Match Certification Form (Exhibit C) with their final billing. Final payment will not be made without the completed form.
- f. State General Fund dollars were awarded to AAAs and must be applied to match requirements of the ARP Act funding as follows:

Match Requirements

- (1) 25% match is required to be applied for administration expenditures.

Special Terms and Conditions

- (2) Service Match of 15% is required for Support Services, Congregate Meals, and Home Delivered Meals. ARP Program Income may also be used for match.
- (3) Service Match of 25% is required for Family Caregiver Support Program/Kinship Caregiver Support Program Services.

Note: At least 33% (1/3) of the 15% match for services for TIII-B, TIII C-1, and TIII C-2 must come from state sources.

- g. Payment of \$331 per client per year for annual assessment services, including significant change and interim assessment/s as needed, for in-home client participants of the Program of All-Inclusive Care for the Elderly (PACE). Participating AAAs (Pierce County ALTC, ALTCEW and Snohomish County LTCA AAA only) can only receive reimbursement once in a twelve-month period.
5. **Confidentiality.** In addition to General Terms and Conditions Confidentiality language, the AAA or its Subcontractors may disclose information to each other, to DSHS, or to appropriate authorities, for purposes directly connected with the services provided to the client. This includes, but is not limited to, determining eligibility, providing services, and participation in disputes, fair hearings or audits. The AAA and its Subcontractors shall disclose information for research, statistical, monitoring and evaluation purposes conducted by appropriate federal agencies and DSHS.
 6. **Amendment Clause Exception.** The only exception to the General Term and Condition Amendment clause (clause 1.) is when an amendment must be processed to distribute federal funds to the Contractor and the funds must be obligated in a Short Timeframe. Short Timeframe means the Contractor is unable to follow their standard contract execution procedures in order to timely obligate the federal funds. By execution of this Contract, the Contractor prospectively agrees to the terms of the federal fund distribution amendment, which shall be limited to only adding funds to the Contractor's Budget. The Contractor's designated point-of-contact shall also email DSHS its acceptance of the amendment no later than the amendment start date.
 7. **Duty to Disclose Business Transactions.**
 - a. Pursuant to 42 CFR 455.105(b), within 35 days of the date on a request by the Secretary of the U.S. Department of Health and Human Services or DSHS, Contractor must submit full and complete information related to Contractor's business transactions that include:
 - (1) The ownership of any subcontractor with whom the Contractor has had business transactions totaling more than \$25,000 during the 12-month period ending on the date of the request; and
 - (2) Any significant business transactions between the Contractor and any wholly owned supplier, or between the Contractor and any subcontractor, during the 5-year period ending on the date of the request.
 - b. Failure to comply with requests made under this term may result in denial of payments until the requested information is disclosed. See 42 CFR 455.105(c).
 8. **State or Federal Audit Requests.** The contractor is required to respond to State or Federal audit requests for records or documentation, within the timeframe provided by the requestor. The Contractor must provide all records requested to either State or Federal agency staff or their designees.
 9. **Grant Award Documents.** Exhibit D, Grant Award Documents are attached hereto or will be sent separately once received from the Administration of Community Living and incorporated herein with no contract amendment needed.

Special Terms and Conditions

- 10. Sovereign Immunity – Colville and Yakama only.** Nothing whatsoever in this Agreement constitutes or shall be construed as a waiver of the Indian Nation's sovereign immunity.

Exhibit A, Statement of Work

The AAA shall provide the following services, as specified in the AAA's current area plan, either directly or through administrative oversight or subcontractors. The AAA shall comply with all applicable state and federal statute and rules, including but not limited to the United States Code, the Code of Federal Regulations, the Revised Code of Washington, the Washington Administrative Code, Federal Program Waivers for COVID-19, and any and all DSHS/ALTSA standards, guidelines, policy manuals, and management bulletins, including management bulletins that grant or remove temporary COVID-19 flexibilities.

If a proposed change or combination of changes in any DSHS/ALTSA standard, guideline, policy manual and/or management bulletin after the commencement of this agreement creates a new and material impact, to the extent possible and as quickly as possible DSHS will consult with the AAA or its professional association to identify potential impacts and when possible, identify how to mitigate impacts within available funding.

Due to COVID-19 pandemic impacts, disaster relief, and recovery efforts, many of the programs and requirements in this statement of work have been granted flexibilities as a result of Federal program waivers approved by Centers for Medicare and Medicaid, in management bulletins and rapid emergency response communications between AAAs and ALTSA in early 2020. ALTSA and the AAAs have been operating in close partnership and frequent communication under extraordinary circumstances that require frequent adaptation to meet the needs of Washingtonians. Some requirements for the services in this contract may continue to be relaxed, suspended, or achieved by alternate methods during the COVID-19 emergency and recovery period. Communications issued via email may be used to document flexibilities and do not require a contract amendment.

This proposal will reflect the total number of dyads to be served with the combined MCWS-specific and FCSP funding, and take into account what has been learned over the last year about average days of utilization per month/year per caregiver, and anticipated program income/participation.

3. Access and Disclosure information. The AAA shall not disclose the contents of any Client records, files, papers and communications except as necessary for the administration of programs to provide services to clients as required by law.

- a. The AAA shall limit access to client data to the AAA and any subcontractor staff whose duties specifically require access to such data in the performance of their assigned duties. AAA or subcontractor staff shall not access any individual client data for personal purposes. Clients shall only be permitted to access their own data.
- b. The AAA shall ensure each employee signs the Contractor Agreement on Nondisclosure of Confidential Information form, attached as Exhibit C, provided by the Department to acknowledge the data access requirements prior to DSHS granting access. Access will be given only to data necessary to the performance of this Agreement. The AAA shall retain the original Nondisclosure form on file. The AAA shall have the form available for DSHS review upon request.

The AAA must provide an annual written reminder of the Nondisclosure requirements to all employees with access to the data to remind them of the limitations, use or publishing of data. The AAA shall retain documentation of such reminder on file for monitoring purposes.

- c. The AAA shall not use or disclose any information concerning any DSHS client for any purpose not directly connected with the administration of the AAA's responsibilities under this Agreement except by prior written consent of the DSHS client, his/her attorney, parent or guardian.
- d. The AAA or its service provider may disclose information to each other or to DSHS for purposes directly connected with the administration of their programs. This includes, but is not limited to, determining eligibility, providing services, and participation in an audit. The AAA and its service providers shall disclose information for authorized research, statistical, monitoring and evaluation purposes conducted by appropriate federal agencies and DSHS. DSHS must authorize in writing the disclosure of this information to any other party not identified in this section.
- e. The AAA staff shall not link the data with personal data or individually identifiable data from any other source nor re-disclose the data unless specifically authorized in this Agreement or by the prior written consent of DSHS.
- f. The AAA shall notify each system Administrator within five business days when a User leaves employment or otherwise no longer requires system access. Upon notification, the system Administrator will deactivate the User ID and terminate access to the applicable application(s). The AAA shall confirm the need for continued access for each User of the ACD on a quarterly basis.
- g. The AAA shall ensure that only registered system Users access and use the systems in this Agreement, use only their own User ID and password to access the systems and do not allow employees who are not registered to borrow a User ID or password to access any systems.
- h. Access to systems may be continuously tracked and monitored. DSHS reserves the right at any time to conduct audits of systems access and use, and to investigate possible violations of this Agreement and/or violations of federal and state laws and regulations governing access to protected health information.

4. Dissemination to Staff. Prior to making information available to new staff and annually thereafter, the

Special Terms and Conditions

AAA shall ensure that staff accessing the Personal Information or PHI under this Agreement are trained in HIPAA use and disclosure of PHI requirements and understand:

a. Confidentiality of Client Data

- (1) Client data is confidential and is protected by various state and federal laws. The basis for this protection is the individual's right to privacy as outlined in the HIPPA Privacy Rule- 45 CFR 160 to 45 CFR 164.
- (2) Personal Information means demographic and financial information about a particular individual that is obtained through one or more sources (such as name, address, SSN, and phone numbers). RCW 42.56.210 lists the information that is exempted from public inspection and copying.

b. Use of Client Data

- (1) Client data may be used only for purposes of these contracted services, directly related to providing services to the client or for the operation of aging and long-term care programs.
- (2) Any personal use of client information is strictly prohibited.
- (3) Access to data must be limited to those staff whose duties specifically require access to such data in the performance of their assigned duties.

- (2) Client information may be disclosed to other individuals or agencies only for purposes of administering DSHS programs, within regulatory constraints for each data type.
- (3) Questions related to disclosure are to be directed to the Home and Community Programs Public Disclosure Coordinator.
- (4) Any disclosure of information contrary to this section is unauthorized and is subject to penalties identified in law.

5. Security of Data

- a. The AAA shall take reasonable precautions to secure against unauthorized physical and electronic access to data, which shall be protected in a manner that prevents unauthorized persons, including the general public, from retrieving data by means of computer, remote terminal, or other means. The AAA shall take due care to ensure AAA and its subcontractors protect said data from unauthorized physical and electronic access. The data will be stored on computers with security systems that require individual user IDs and hardened passwords. Only persons who have signed the *Contractor Agreement on Nondisclosure of Confidential Information form* covering this data share agreement will be able to access the data that Washington State shares with the AAA under this Agreement.
- b. The AAA shall ensure disks and/or documents generated in printed form from the electronic file are properly returned, destroyed or shredded when no longer needed so unauthorized individuals

Special Terms and Conditions

cannot access client information. Data destroyed shall include all copies of any data sets in possession after the data has been used for the purpose specified herein or within 30 days of the date of termination and certify such destruction to DSHS. DSHS shall be responsible for destroying the returned documents to ensure confidentiality is maintained. The Data provided by DSHS will remain the property of DSHS and will be promptly destroyed as allowed by law and when the AAA and its subcontractors have completed the work for which the information was required, as fully described by incorporated Exhibit A Data Security Requirements.

- c. The AAA shall protect information according to state and federal laws including the following incorporated by reference:

 - (6) Public Law 99-508 (18 USC section 2510et. Seq. Electronic Communications Privacy Act of 1986) Part A of Title IV of the Social Security Act authorizes disclosure of client information and provides for safeguards, which restrict the use or disclosure of information concerning applicants or recipients to purposes directly connected with administration of the program.
- d. AAA employees, contractors, and agents that have access to the ACES system will ensure that they comply with the security and safeguarding requirements as per the AL TSA/ESA Data Sharing MOU
- e. ADS/Seattle King County AAA - DSHS expressly acknowledges and agrees that Contractor may share PHI with Collective Medical and place PHI on the Collective Medical system, thereby permitting other medical providers to access and use the PHI for purposes of medical treatment. Contractor shall submit its contract with Collective Medical to DSHS for approval.

Special Terms and Conditions

Exhibit A – Data Security Requirements

1. **Definitions.** The words and phrases listed below, as used in this Exhibit, shall each have the following definitions:
 - a. “AES” means the Advanced Encryption Standard, a specification of Federal Information Processing Standards Publications for the encryption of electronic data issued by the National Institute of Standards and Technology (<http://nvlpubs.nist.gov/nistpubs/FIPS/NIST.FIPS.197.pdf>).
 - b. “Authorized Users(s)” means an individual or individuals with a business need to access DSHS Confidential Information, and who has or have been authorized to do so.
 - c. “Business Associate Agreement” means an agreement between DSHS and a contractor who is receiving Data covered under the Privacy and Security Rules of the Health Insurance Portability and Accountability Act of 1996. The agreement establishes permitted and required uses and disclosures of protected health information (PHI) in accordance with HIPAA requirements and provides obligations for business associates to safeguard the information.
 - d. “Category 4 Data” is data that is confidential and requires special handling due to statutes or regulations that require especially strict protection of the data and from which especially serious consequences may arise in the event of any compromise of such data. Data classified as Category 4 includes but is not limited to data protected by: the Health Insurance Portability and Accountability Act (HIPAA), Pub. L. 104-191 as amended by the Health Information Technology for Economic and Clinical Health Act of 2009 (HITECH), 45 CFR Parts 160 and 164; the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §1232g; 34 CFR Part 99; Internal Revenue Service Publication 1075 (<https://www.irs.gov/pub/irs-pdf/p1075.pdf>); Substance Abuse and Mental Health Services Administration regulations on Confidentiality of Alcohol and Drug Abuse Patient Records, 42 CFR Part 2; and/or Criminal Justice Information Services, 28 CFR Part 20.
 - e. “Cloud” means data storage on servers hosted by an entity other than the Contractor and on a network outside the control of the Contractor. Physical storage of data in the cloud typically spans multiple servers and often multiple locations. Cloud storage can be divided between consumer grade storage for personal files and enterprise grade for companies and governmental entities. Examples of consumer grade storage would include iTunes, Dropbox, Box.com, and many other entities. Enterprise cloud vendors include Microsoft Azure, Amazon Web Services, and Rackspace.
 - f. “Encrypt” means to encode Confidential Information into a format that can only be read by those possessing a “key”; a password, digital certificate or other mechanism available only to authorized users. Encryption must use a key length of at least 256 bits for symmetric keys, or 2048 bits for asymmetric keys. When a symmetric key is used, the Advanced Encryption Standard (AES) must be used if available.
 - g. “FedRAMP” means the Federal Risk and Authorization Management Program (see www.fedramp.gov), which is an assessment and authorization process that federal government agencies have been directed to use to ensure security is in place when accessing Cloud computing products and services.
 - h. “Hardened Password” means a string of at least eight characters containing at least three of the following four character classes: Uppercase alphabetic, lowercase alphabetic, numeral, and special characters such as an asterisk, ampersand, or exclamation point.

Special Terms and Conditions

- i. "Mobile Device" means a computing device, typically smaller than a notebook, which runs a mobile operating system, such as iOS, Android, or Windows Phone. Mobile Devices include smart phones, most tablets, and other form factors.
 - j. "Multi-factor Authentication" means controlling access to computers and other IT resources by requiring two or more pieces of evidence that the user is who they claim to be. These pieces of evidence consist of something the user knows, such as a password or PIN; something the user has such as a key card, smart card, or physical token; and something the user is, a biometric identifier such as a fingerprint, facial scan, or retinal scan. "PIN" means a personal identification number, a series of numbers which act as a password for a device. Since PINs are typically only four to six characters, PINs are usually used in conjunction with another factor of authentication, such as a fingerprint.
 - k. "Portable Device" means any computing device with a small form factor, designed to be transported from place to place. Portable devices are primarily battery powered devices with base computing resources in the form of a processor, memory, storage, and network access. Examples include, but are not limited to, mobile phones, tablets, and laptops. Mobile Device is a subset of Portable Device.
 - l. "Portable Media" means any machine readable media that may routinely be stored or moved independently of computing devices. Examples include magnetic tapes, optical discs (CDs or DVDs), flash memory (thumb drive) devices, external hard drives, and internal hard drives that have been removed from a computing device.
 - m. "Secure Area" means an area to which only authorized representatives of the entity possessing the Confidential Information have access, and access is controlled through use of a key, card key, combination lock, or comparable mechanism. Secure Areas may include buildings, rooms or locked storage containers (such as a filing cabinet or desk drawer) within a room, as long as access to the Confidential Information is not available to unauthorized personnel. In otherwise Secure Areas, such as an office with restricted access, the Data must be secured in such a way as to prevent access by non-authorized staff such as janitorial or facility security staff, when authorized Contractor staff are not present to ensure that non-authorized staff cannot access it.
 - n. "Trusted Network" means a network operated and maintained by the Contractor, which includes security controls sufficient to protect DSHS Data on that network. Controls would include a firewall between any other networks, access control lists on networking devices such as routers and switches, and other such mechanisms which protect the confidentiality, integrity, and availability of the Data.
 - o. "Unique User ID" means a string of characters that identifies a specific user and which, in conjunction with a password, passphrase or other mechanism, authenticates a user to an information system.
2. **Authority.** The security requirements described in this document reflect the applicable requirements of Standard 141.10 (<https://ocio.wa.gov/policies>) of the Office of the Chief Information Officer for the state of Washington, and of the DSHS Information Security Policy and Standards Manual. Reference material related to these requirements can be found here: <https://www.dshs.wa.gov/ffa/keeping-dshs-client-information-private-and-secure>, which is a site developed by the DSHS Information Security Office and hosted by DSHS Central Contracts and Legal Services.
3. **Administrative Controls.** The Contractor must have the following controls in place:

Special Terms and Conditions

- a. A documented security policy governing the secure use of its computer network and systems, and which defines sanctions that may be applied to Contractor staff for violating that policy.
 - b. If the Data shared under this agreement is classified as Category 4, the Contractor must be aware of and compliant with the applicable legal or regulatory requirements for that Category 4 Data.
 - c. If Confidential Information shared under this agreement is classified as Category 4, the Contractor must have a documented risk assessment for the system(s) housing the Category 4 Data.
- 4. Authorization, Authentication, and Access.** In order to ensure that access to the Data is limited to authorized staff, the Contractor must:
- a. Have documented policies and procedures governing access to systems with the shared Data.
 - b. Restrict access through administrative, physical, and technical controls to authorized staff.
 - c. Ensure that user accounts are unique and that any given user account logon ID and password combination is known only to the one employee to whom that account is assigned. For purposes of non-repudiation, it must always be possible to determine which employee performed a given action on a system housing the Data based solely on the logon ID used to perform the action.
 - d. Ensure that only authorized users are capable of accessing the Data.
 - e. Ensure that an employee's access to the Data is removed immediately:
 - (1) Upon suspected compromise of the user credentials.
 - (2) When their employment, or the contract under which the Data is made available to them, is terminated.
 - (3) When they no longer need access to the Data to fulfill the requirements of the contract.
 - f. Have a process to periodically review and verify that only authorized users have access to systems containing DSHS Confidential Information.
 - g. When accessing the Data from within the Contractor's network (the Data stays within the Contractor's network at all times), enforce password and logon requirements for users within the Contractor's network, including:
 - (1) A minimum length of 8 characters, and containing at least three of the following character classes: uppercase letters, lowercase letters, numerals, and special characters such as an asterisk, ampersand, or exclamation point.
 - (2) That a password does not contain a user's name, logon ID, or any form of their full name.
 - (3) That a password does not consist of a single dictionary word. A password may be formed as a passphrase which consists of multiple dictionary words.
 - (4) That passwords are significantly different from the previous four passwords. Passwords that increment by simply adding a number are not considered significantly different.

Special Terms and Conditions

- h. When accessing Confidential Information from an external location (the Data will traverse the Internet or otherwise travel outside the Contractor's network), mitigate risk and enforce password and logon requirements for users by employing measures including:
 - (1) Ensuring mitigations applied to the system don't allow end-user modification.
 - (2) Not allowing the use of dial-up connections.
 - (3) Using industry standard protocols and solutions for remote access. Examples would include RADIUS and Citrix.
 - (4) Encrypting all remote access traffic from the external workstation to Trusted Network or to a component within the Trusted Network. The traffic must be encrypted at all times while traversing any network, including the Internet, which is not a Trusted Network.
 - (5) Ensuring that the remote access system prompts for re-authentication or performs automated session termination after no more than 30 minutes of inactivity.
 - (6) Ensuring use of Multi-factor Authentication to connect from the external end point to the internal end point.
 - i. Passwords or PIN codes may meet a lesser standard if used in conjunction with another authentication mechanism, such as a biometric (fingerprint, face recognition, iris scan) or token (software, hardware, smart card, etc.) in that case:
 - (1) The PIN or password must be at least 5 letters or numbers when used in conjunction with at least one other authentication factor
 - (2) Must not be comprised of all the same letter or number (11111, 22222, aaaaa, would not be acceptable)
 - (3) Must not contain a "run" of three or more consecutive numbers (12398, 98743 would not be acceptable)
 - j. If the contract specifically allows for the storage of Confidential Information on a Mobile Device, passcodes used on the device must:
 - (1) Be a minimum of six alphanumeric characters.
 - (2) Contain at least three unique character classes (upper case, lower case, letter, number).
 - (3) Not contain more than a three consecutive character run. Passcodes consisting of 12345, or abcd12 would not be acceptable.
 - k. Render the device unusable after a maximum of 10 failed logon attempts.
5. **Protection of Data.** The Contractor agrees to store Data on one or more of the following media and protect the Data as described:
- a. **Hard disk drives.** For Data stored on local workstation hard disks, access to the Data will be restricted to Authorized User(s) by requiring logon to the local workstation using a Unique User ID

Special Terms and Conditions

and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards.

- b. **Network server disks.** For Data stored on hard disks mounted on network servers and made available through shared folders, access to the Data will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on disks mounted to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.

For DSHS Confidential Information stored on these disks, deleting unneeded Data is sufficient as long as the disks remain in a Secure Area and otherwise meet the requirements listed in the above paragraph. Destruction of the Data, as outlined below in Section 8 Data Disposition, may be deferred until the disks are retired, replaced, or otherwise taken out of the Secure Area.

- c. **Optical discs (CDs or DVDs) in local workstation optical disc drives.** Data provided by DSHS on optical discs which will be used in local workstation optical disc drives and which will not be transported out of a Secure Area. When not in use for the contracted purpose, such discs must be Stored in a Secure Area. Workstations which access DSHS Data on optical discs must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- d. **Optical discs (CDs or DVDs) in drives or jukeboxes attached to servers.** Data provided by DSHS on optical discs which will be attached to network servers and which will not be transported out of a Secure Area. Access to Data on these discs will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on discs attached to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- e. **Paper documents.** Any paper records must be protected by storing the records in a Secure Area which is only accessible to authorized personnel. When not in use, such records must be stored in a Secure Area.
- f. **Remote Access.** Access to and use of the Data over the State Governmental Network (SGN) or Secure Access Washington (SAW) will be controlled by DSHS staff who will issue authentication credentials (e.g. a Unique User ID and Hardened Password) to Authorized Users on Contractor's staff. Contractor will notify DSHS staff immediately whenever an Authorized User in possession of such credentials is terminated or otherwise leaves the employ of the Contractor, and whenever an Authorized User's duties change such that the Authorized User no longer requires access to perform work for this Contract.
- g. **Data storage on portable devices or media.**

- (1) Except where otherwise specified herein, DSHS Data shall not be stored by the Contractor on portable devices or media unless specifically authorized within the terms and conditions of the Contract. If so authorized, the Data shall be given the following protections:

Special Terms and Conditions

- (a) Encrypt the Data.
 - (b) Control access to devices with a Unique User ID and Hardened Password or stronger authentication method such as a physical token or biometrics.
 - (c) Manually lock devices whenever they are left unattended and set devices to lock automatically after a period of inactivity, if this feature is available. Maximum period of inactivity is 20 minutes.
 - (d) Apply administrative and physical security controls to Portable Devices and Portable Media by:
 - i. Keeping them in a Secure Area when not in use,
 - ii. Using check-in/check-out procedures when they are shared, and
 - iii. Taking frequent inventories.
 - (2) When being transported outside of a Secure Area, Portable Devices and Portable Media with DSHS Confidential Information must be under the physical control of Contractor staff with authorization to access the Data, even if the Data is encrypted.
- h. Data stored for backup purposes.**
- (1) DSHS Confidential Information may be stored on Portable Media as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. Such storage is authorized until such time as that media would be reused during the course of normal backup operations. If backup media is retired while DSHS Confidential Information still exists upon it, such media will be destroyed at that time in accordance with the disposition requirements below in Section 8 *Data Disposition*.
 - (2) Data may be stored on non-portable media (e.g. Storage Area Network drives, virtual media, etc.) as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. If so, such media will be protected as otherwise described in this exhibit. If this media is retired while DSHS Confidential Information still exists upon it, the data will be destroyed at that time in accordance with the disposition requirements below in Section 8 *Data Disposition*.
- i. Cloud storage.** DSHS Confidential Information requires protections equal to or greater than those specified elsewhere within this exhibit. Cloud storage of Data is problematic as neither DSHS nor the Contractor has control of the environment in which the Data is stored. For this reason:
- (1) DSHS Data will not be stored in any consumer grade Cloud solution, unless all of the following conditions are met:
 - (a) Contractor has written procedures in place governing use of the Cloud storage and Contractor attests in writing that all such procedures will be uniformly followed.
 - (b) The Data will be Encrypted while within the Contractor network.
 - (c) The Data will remain Encrypted during transmission to the Cloud.

Special Terms and Conditions

- (d) The Data will remain Encrypted at all times while residing within the Cloud storage solution.
 - (e) The Contractor will possess a decryption key for the Data, and the decryption key will be possessed only by the Contractor and/or DSHS.
 - (f) The Data will not be downloaded to non-authorized systems, meaning systems that are not on either the DSHS or Contractor networks.
 - (g) The Data will not be decrypted until downloaded onto a computer within the control of an Authorized User and within either the DSHS or Contractor's network.
- (2) Data will not be stored on an Enterprise Cloud storage solution unless either:
- (a) The Cloud storage provider is treated as any other Sub-Contractor, and agrees in writing to all of the requirements within this exhibit; or,
 - (b) The Cloud storage solution used is FedRAMP certified.
- (3) If the Data includes protected health information covered by the Health Insurance Portability and Accountability Act (HIPAA), the Cloud provider must sign a Business Associate Agreement prior to Data being stored in their Cloud solution.
- 6. System Protection.** To prevent compromise of systems which contain DSHS Data or through which that Data passes:
- a. Systems containing DSHS Data must have all security patches or hotfixes applied within 3 months of being made available.
 - b. The Contractor will have a method of ensuring that the requisite patches and hotfixes have been applied within the required timeframes.
 - c. Systems containing DSHS Data shall have an Anti-Malware application, if available, installed.
 - d. Anti-Malware software shall be kept up to date. The product, its anti-virus engine, and any malware database the system uses, will be no more than one update behind current.
- 7. Data Segregation.**
- a. DSHS Data must be segregated or otherwise distinguishable from non-DSHS data. This is to ensure that when no longer needed by the Contractor, all DSHS Data can be identified for return or destruction. It also aids in determining whether DSHS Data has or may have been compromised in the event of a security breach. As such, one or more of the following methods will be used for data segregation.
 - (1) DSHS Data will be kept on media (e.g. hard disk, optical disc, tape, etc.) which will contain no non-DSHS Data. And/or,
 - (2) DSHS Data will be stored in a logical container on electronic media, such as a partition or folder dedicated to DSHS Data. And/or,
 - (3) DSHS Data will be stored in a database which will contain no non-DSHS data. And/or,

Special Terms and Conditions

(4) DSHS Data will be stored within a database and will be distinguishable from non-DSHS data by the value of a specific field or fields within database records.

(5) When stored as physical paper documents, DSHS Data will be physically segregated from non-DSHS data in a drawer, folder, or other container.

b. When it is not feasible or practical to segregate DSHS Data from non-DSHS data, then both the DSHS Data and the non-DSHS data with which it is commingled must be protected as described in this exhibit.

8. Data Disposition. When the contracted work has been completed or when the Data is no longer needed, except as noted above in Section 5.b, Data shall be returned to DSHS or destroyed. Media on which Data may be stored and associated acceptable methods of destruction are as follows:

Data stored on:	Will be destroyed by:
Server or workstation hard disks, or Removable media (e.g. floppies, USB flash drives, portable hard disks) excluding optical discs	Using a "wipe" utility which will overwrite the Data at least three (3) times using either random or single character data, or Degaussing sufficiently to ensure that the Data cannot be reconstructed, or Physically destroying the disk
Paper documents with sensitive or Confidential Information	Recycling through a contracted firm, provided the contract with the recycler assures that the confidentiality of Data will be protected.
Paper documents containing Confidential Information requiring special handling (e.g. protected health information)	On-site shredding, pulping, or incineration
Optical discs (e.g. CDs or DVDs)	Incineration, shredding, or completely defacing the readable surface with a coarse abrasive
Magnetic tape	Degaussing, incinerating or crosscut shredding

9. Notification of Compromise or Potential Compromise. The compromise or potential compromise of DSHS shared Data must be reported to the DSHS Contact designated in the Contract within one (1) business day of discovery. If no DSHS Contact is designated in the Contract, then the notification must be reported to the DSHS Privacy Officer at dshsprivacyofficer@dshs.wa.gov. Contractor must also take actions to mitigate the risk of loss and comply with any notification or other requirements imposed by law or DSHS.

10. Data shared with Subcontractors. If DSHS Data provided under this Contract is to be shared with a subcontractor, the Contract with the subcontractor must include all of the data security provisions within this Contract and within any amendments, attachments, or exhibits within this Contract. If the Contractor cannot protect the Data as articulated within this Contract, then the contract with the subcontractor must be submitted to the DSHS Contact specified for this contract for review and approval.
