The purpose of this Addendum is to answer the following questions for the above referenced RFP.

1. What are the requirements for disposal of Ivy or Brush from the different sites? Or can it be left in place? *I'm not exactly sure as to which demolition project is being referred to here, but all brush/ Ivy that needs to be removed to meet the requirements of the scope of work should be removed from the site and properly disposed of.*
2. Some power lines are still connected to the houses, but the meters have been removed. Are these lines live? *Power to the buildings identified for demolition have had the power cut off at the meter. Any additional power (lines) the contractor should reach out to PSE to verify additional information prior to commencing work.*
3. What is the estimated timeline for Notice to Proceed? *The notice to proceed will be awarded after all bids have been received and have been reviewed by Parks staff to determine the associated costs for each demolition project.*
