Re: Water Quality Certification Order No. **23617** (Corps No. **NWS-2024-0060**), Dyes Inlet Lagoon Bulkhead Removal and Restoration project, Kitsap County, Washington

Dear Christina Kereki:

On 2/27/2025, Kitsap County Department of Community Development submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Dyes Inlet Lagoon Bulkhead Removal and Restoration project, Kitsap County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies with conditions that the work described in the Water Quality Certification Request and supplemental documents complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. **This certification is subject to the enclosed Water Quality Certification Order (WQC Order).**

Please ensure that anyone doing work under this WQC Order has read, is familiar with, and is able to follow all of the provisions within the attached WQC Order.

If you have any questions about this decision, please contact Casey Vaughn at (564) 669-4201. The enclosed WQC Order may be appealed by following the procedures described within.

Sincerely,

Brenden McFarland, Section Manager
Environmental Review and Transportation Section
Shorelands and Environmental Assistance Program

In The Matter of Granting a Water Quality
Certification with Conditions to Kitsap County
pursuant to 33 U.S.C. 1341 (FWPCA § 401), RCW 90.48.120, RCW
90.48.260 and Chapter 173-201A WAC

Kitsap County Department of Community Development
Attn: Christina Kereki

WQC Order No.	23617
Corps Reference No.	NWS-2024-0060
Site Location	Dyes Inlet Lagoon Bulkhead Removal and Restoration project located within the Puget Sound, near Silverdale, Kitsap County, Washington.

Kitsap County submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Dyes Inlet Lagoon Bulkhead Removal and Restoration project, Kitsap County, Washington. The following required processing dates are listed below:

- On 12/12/2024, Kitsap County submitted a pre-filing meeting request.
- On 2/27/2025, Ecology received a request for Clean Water Section 401 Water Quality Certification.
- On 12/18/2024, the U.S. Army Corps of Engineers (Corps) sent an email notification to Ecology that they are reviewing the project for authorization under the Nationwide Permit (NWP) Program.
- Ecology's "Reasonable Period of Time" for this project has been established as 8/26/2025.
- On 3/17/2025, Ecology issued a public notice for the project.

This project proposes to restore degraded tidal flow processes by removing a total 514 linear feet of hard armor, 1,300 cubic yards of fill, and scattered debris, and restore a more natural salt marsh and lagoon profile. This project additionally proposes to plant approximately 0.85 acres with native plants, shrubs, and trees.

The project site is located at 9301 Mickelberry Road NW, Silverdale, Puget Sound, Kitsap County, Washington, Section 21, Township 25 N., Range 01 E., within Water Resource Inventory Area (WRIA) 15 - Kitsap.

With this WQC Order, Ecology is granting with conditions Kitsap County's request for a Section 401 Water Quality Certification for the Dyes Inlet Lagoon Bulkhead Removal and Restoration project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on 2/27/2025, and the following supporting documentation:

1. Planting Plan submitted on 3/12/2025.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Kitsap County must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Kitsap County to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC), or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves Kitsap County from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

Special Conditions:

1. This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues a Department of the Army (DA) permit for this project. WQC Order No. 23617 will remain valid until 3/31/2028
 - Justification – Certifications are required for any license or permit that authorizes an activity that may result in a discharge or fill material into waters. This WQC Order is not valid until the Federal agency issues a permit. Additionally, Ecology needs to be able to specify how long the WQC Order will be in effect.
 - Citation – Chapter 90.48 RCW, Chapter 173-201A WAC, and WAC 173-225-010.
2. Kitsap County shall send a copy of the final Federal permit via e-mail to fednotification@ecy.wa.gov and cc to Federal Permit Manager prior to the starting of any work authorized by this WQC Order. If the Federal Agency determines the proposed project does not require a Federal permit, the Project Proponent shall immediately inform Ecology.
 - Justification - This condition is needed to ensure that the federal permit has been issued and all the conditions of the WQC Order have been included into the federal permit.
 - Citation - 40 CFR 121.10, 40 CFR 121.11, and Chapter 90.48 RCW.

3. To transfer this WQC Order to a new owner or operator Kitsap County shall:

- a. Complete a Request for Transfer of Order with a specific transfer date of the WQC Order's obligations, coverage, and liability and submit it to Ecology at fednotification@ecy.wa.gov and cc to Casey.Vaughn@ecy.wa.gov. Link to form: <https://apps.ecology.wa.gov/publications/SummaryPages/ECY070695.html>;
- b. Provide a copy of this WQC Order to the new owner or operator; and
- c. The transfer is not considered valid until the Project Proponent receives written notification from Ecology that the transfer has been approved.
 - Justification – Ecology has independent state authority to ensure protection of state water quality. Ecology needs to ensure that anyone conducting work at the project, including any new owners or operators, are aware of and understand the required conditions of this WQC Order to ensure compliance with the water quality standards and other applicable state laws.
 - Citation – 40 CFR 121.5, Chapter 90.48 RCW, RCW 90.48.030, Chapter 173-201A WAC, and WAC 173-225-010.

4. Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited. If such work, conditions, or discharges occur, immediately notify Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division at 1-800-258-5990, for spills to water only. This condition is necessary to prevent oil and other hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.

- Justification - This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm. Ecology must protect waters of the state from all discharges and potential discharges of pollution that can affect water quality to protect aquatic life and beneficial uses.

- Citation - Chapter 90.48 RCW, RCW 90.48.030, RCW 90.48.080, Chapter 90.56 RCW, RCW 90.56.280, Chapter 173-201A WAC, WAC 173-201A-300 - 330, WAC 173-204-120, WAC 173-225-010, and WAC 173-303-145.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted with conditions to Kitsap County for the Dyes Inlet Lagoon Bulkhead Removal and Restoration project.

Your right to appeal

You have a right to appeal this Order to the Pollution Control Hearings Board (PCHB) within 30 days of the date of receipt. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal, you must do all of the following within 30 days of the date of receipt of this Order:

- File your notice of appeal and a copy of this Order with the PCHB (see filing information below). "Filing" means actual receipt by the PCHB during regular business hours as defined in WAC 371-08-305 and -335. "Notice of appeal" is defined in WAC 371-08-340.
- Serve a copy of your notice of appeal and this Order on the Department of Ecology mail, in person, or by email (see addresses below).

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
