

REQUEST FOR PROPOSALS

2026-005
COMMUNITY DEVELOPMENT PERMITTING SOFTWARE

Response Deadline: Wednesday, March 18, 2026

Kitsap County's Department of Community Development (DCD) seeks a modern, cloud-based permitting software solution to replace or upgrade the current permitting system.

The solution must support permitting, inspections, code enforcement, development projects, and planning workflows, while providing robust reporting, integrations, and public self-service.

The selected vendor will provide software, implementation services, data migration, training, and post-go-live support under a professional services agreement with Kitsap County. A detailed scope of work and implementation plan will be finalized during contract negotiations.

The project will deliver a secure, reliable, and configurable system that supports end-to-end development review, inspections, enforcement activities, document management, and customer-facing services.
