Reference: NWS-2024-60
Kitsap County Dept of
Community Development
(Dyes Inlet Lagoon
Bulkhead Removal)

Dear Ms. Kereki:

On January 14, 2026, you requested a modification to the work window requirements for the above-referenced Nationwide Permit (NWP) 13 verification issued to you on May 5, 2025. The work authorized was to remove 514 linear feet of rock and concrete bulkheads and 14 creosote piles, set back 61 linear feet of bulkhead, lower 15 linear feet of existing rockery sections, construct 27 linear feet of return wall, remove scattered rock and concrete debris, remove fill behind the existing bulkhead, re-grade the shoreline, and place sediment for beach nourishment in Dyes Inlet near Silverdale, Kitsap County, Washington. You requested a permit modification to remove the forage fish survey work window and requirements.

We have reviewed your request and verified that this NWP still authorizes this project provided you ensure that the work is performed in accordance with the special modified conditions listed below.

a. In order to meet the requirements of the Endangered Species Act you may conduct the authorized activities from July 16 through February 15 in any year this permit is valid. You shall not conduct work authorized by this permit from February 16 through July 15 in any year this permit is valid.

This NWP verification supersedes the verification authorized by this office on May 5, 2025. All other terms and conditions contained in the original NWP verification remain in full force and effect. Our verification of this NWP authorization is valid until March 14, 2026, unless the NWP is modified, reissued, or revoked prior to that date. If the authorized work for the NWP authorization has not been completed by that date and you have commenced or are under contract to commence this activity before March 14,

2026, you will have until March 14, 2027, to complete the activity under the enclosed terms and conditions of this NWP. Failure to comply with all terms and conditions of this NWP verification invalidates this authorization and could result in a violation of Section 404 of the Clean Water Act and/or Section 10 of the Rivers and Harbors Act. You must also obtain all local, State, and other Federal permits that apply to this project.

If you have any questions, please contact me at sarah.l.albright@usace.army.mil or (206) 561-6746.

Sincerely,

A handwritten signature in black ink that reads "Sarah Albright". The signature is written in a cursive style with a large, looped "S" and "A".
