

Notice of Administrative Decision

Date: October 2, 2018

To: **M & P Builders Inc, Mpbergs@comcast.net**
Kegel Engineering, Kegelengineering@gmail.com

RE: **Permit Number: 18-00022**
Project Name: M & P Builders Inc.
Type of Application: Preliminary Short Plat Approval

Decision Summary:

Short Subdivision #7435 has been granted preliminary approval.

THE DECISION OF THE DEPARTMENT IS FINAL, UNLESS APPEALED TO THE KITSAP COUNTY HEARING EXAMINER ON OR BEFORE 14 DAYS FROM THE DATE OF DECISION PER KITSAP COUNTY CODE 21.04.290.

The written appeal shall be made on, or attached to, an appeal form found on DCD's website:

<https://www.cognitofrms.com/KitsapCounty1/AppealObjectionOfAnAdministrativeDecision>.

Dear M & P Builders:

This is to inform you that the above-referenced Short Subdivision has been granted **preliminary** approval.

This decision is in compliance with Kitsap County Code 21.04 Land Use and Development Procedures. All applicable criteria have been met for Preliminary Short Subdivision in accordance with Kitsap County Code Title 16.48 Short Subdivision.

The Department has further determined that the land segregation as it is presented in the Preliminary Short Plat, received 01/03/2018 by the Department of Community Development, conforms or will conform subject to conditions set forth in this letter, to the following:

1. Kitsap County Code Title 17 Zoning;
2. Kitsap County Code Title 12 Storm Water Drainage;
3. Kitsap County Comprehensive Plan and subarea plans;
4. Kitsap County Critical Areas Ordinance;
5. And all other elements of the Kitsap County Code that pertain to this land segregation.

18-00022 Preliminary Short Plat Approval
October 2, 2018

Approval is subject to the following conditions:

LAND USE

1. Adhere to all elements and requirements set forth in Kitsap County Code 16.48.
2. The following condition shall be added to the face of the Final Short Plat: Building permits issued on a lot in this Short Subdivision may be subject to impact fees pursuant to Kitsap County Code.
3. The names of the roads in this land segregation shall be approved by Community Development prior to final subdivision approval.
4. All required permits shall be obtained prior to commencement of land clearing, construction and/or occupancy.
5. The decision set forth herein is based upon representations made and exhibits contained in the project application (18-00022). Any change(s) or deviation(s) in such plans, proposals, or conditions of approval imposed shall be subject to further review and approval of the County and potentially the Hearing Examiner.
6. The authorization granted herein is subject to all applicable federal, state, and local laws, regulations, and ordinances. Compliance with such laws, regulations, and ordinances is a condition to the approvals granted and is a continuing requirement of such approvals. By accepting this/these approvals, the applicant represents that the development and activities allowed will comply with such laws, regulations, and ordinances. If, during the term of the approval granted, the development and activities permitted do not comply with such laws, regulations, or ordinances, the applicant agrees to promptly bring such development or activities into compliance.
7. Final landscaping plan shall be submitted with the Site Development Activity Permit. SDAP

SURVEY

1. A Road Maintenance Agreement will be required for the access easements shown on the face of the plat. This may be in the form of a note on the face of the Final Plat that addresses ownership and maintenance responsibilities of the access easement, or in the form of a Road Maintenance Agreement document to be recorded separately and referenced on the face of the Final Plat.

STORMWATER

1. Construction plans and profiles for all roads, storm drainage facilities and appurtenances prepared by the developer's engineer shall be submitted to Kitsap County for review and acceptance. No construction shall be started prior to said plan acceptance.

2. Approval of the preliminary plat shall not be construed to mean approval of the total number of lots or configuration of the lots and tracts. These parameters may be required to be revised for the final design to meet all requirements of Kitsap County Code Titles 11 and 12.
3. The information provided demonstrates this proposal is a Large Project as defined in **Kitsap County Code Title 12**, and as such will require a Site Development Activity Permit (**SDAP**) from Development Services and Engineering that demonstrates a stormwater management design to the level of Full Drainage Review.
4. Stormwater quantity control, quality treatment, and erosion and sedimentation control shall be designed in accordance with Kitsap County Code Title 12 effective at the time the Preliminary Short Subdivision application was deemed complete, January 3, 2018. The submittal documents shall be prepared by a civil engineer licensed in the State of Washington. The fees and submittal requirements shall be in accordance with Kitsap County Ordinances in effect at the time of SDAP application.
5. Any project that includes off-site improvements that create additional impervious surface such as lane widening, sidewalk or shoulder installation or intersection channelization shall provide stormwater mitigation in accordance with Kitsap County Code Title 12 effective at the time the Preliminary Short Subdivision application was deemed complete, January 3, 2018.
6. The Washington State Department of Ecology (Ecology) may require registration of the infiltration trench as an Underground Injection Control (UIC) well in accordance with the Underground Injection Control Program (Chapter 173-218 WAC). The applicant shall contact Ecology to determine if the facility is regulated under the UIC program.
7. The design of the infiltration facilities will be accordance with Volume II, Chapter 5 of the Kitsap County Stormwater Design Manual.
8. The infiltration facilities shall remain off line until the drainage areas are stabilized and the water quality treatment facility is adequately established. Temporary erosion and sedimentation ponds shall not be located over infiltration facilities.
9. During the construction of the proposed infiltration facilities, the Project Engineer shall provide an inspection to verify that the facilities are installed in accordance with the design documents and that actual soil conditions encountered meet the design assumptions. The Project Engineer shall submit the inspection report properly stamped and sealed with a professional engineer's stamp to Development Services and Engineering.

10. All lots shall use individual on-site infiltration systems. Before the issuance of building permits and/or occupancy permits, the property owner shall submit to the Department of Community Development for review, a sketch showing the design and location of a stormwater infiltration facility for the distribution of surface water runoff. Maintenance of these systems will be the responsibility of the homeowner.
11. Before SDAP acceptance, the applicant shall submit a set of drawings to the City of Port Orchard for review. The applicant shall notify Development Services and Engineering in writing when the plans have been submitted to the City. Development Services and Engineering shall coordinate with the City to determine if the City has any comments to the submittal.
12. The owner shall be responsible for maintenance of the storm drainage facilities for this development following construction. Before issuance of Occupancy Permits for this development, the person or persons holding title to the subject property for which the storm drainage facilities were required shall record a Declaration of Covenant that guarantees the County that the system will be properly maintained. Wording must be included in the covenant that will allow the County to inspect the system and perform the necessary maintenance in the event the system is not performing properly. This would be done only after notifying the owner and giving him a reasonable time to do the necessary work. Should County forces be required to do the work, the owner will be billed the maximum amount allowed by law.
13. Kitsap County will not be responsible for any damage to any private roads, tracts, and/or easement areas that may occur during routine maintenance activities and that in Kitsap County's judgment occur, in whole or in part, because of any construction materials or techniques, or any maintenance materials or techniques. This includes, but is not limited to, damage to pavement or vegetated areas caused by maintenance trucks.
14. The impervious area per lot accounted for in the overall drainage facilities installed shall be indicated on the face of the final plat, along with the following condition: Additional impervious surfaces created on an individual lot beyond the amount accounted for in the overall drainage facilities shall be mitigated in accordance with Kitsap County Code Title 12.
15. If the project proposal is modified from that shown on the submitted site plan dated January 3, 2018, Development Services and Engineering will require additional review and potentially new conditions.

TRAFFIC

1. Submit an Application for Concurrency Test (KCPW Form 1601) as required by Chapter 20.04.030, Transportation Concurrency, of the Kitsap County Code. The KCPW 1601 form reserves road capacity for the project.
2. The following note shall appear on the face of the final plat map. "All interior roads shall remain private."

3. All traffic control devices on public and private roads shall comply with the Manual on Uniform Traffic Control Devices as amended by the Washington Administrative Code. This is in accordance with 23 Code of Federal Regulations (CFR), Part 655.
4. Sidewalks and curb ramps shall be constructed per WSDOT Standard Plans F-30.10-03, F-40.10-03 and F45.10-02.
5. All lots shall access from interior roads only. This note shall appear on the face of the final plat map.
6. The property owners within the plat shall be responsible for maintenance of all landscaping within the existing and proposed right-of-way including any structures other than roadway, storm drainage facilities, and traffic signage. Maintenance shall include, but not be limited to, mowing of lawn areas. A note to this effect shall appear on the face of the final plat map and the accepted construction plans. In addition, Development Services and Engineering reserves the right to require that covenants be recorded to address special maintenance requirements depending on final design.
7. Frontage improvements, consisting of vertical curb, gutter and 5-foot wide sidewalk, are required along the property frontage on Harris Road SE.
8. Provide surveyed cross-sections at 50-foot intervals along the parcel frontage on Harris Road SE. The cross-sections should show existing and proposed pavement, sidewalks, shoulders, ditches and slopes. The cross-sections should also depict centerline of pavement and right-of-way, the right-of-way lines, and easements.
9. Submit plans for construction of the road approach between the edge of existing pavement and the right-of-way line at all intersections with county rights-of-way. Approaches shall be designed per Kitsap Standard Plan 4-3a, in accordance with the Kitsap County Road Standards as established in Chapter 11.22 of the Kitsap County Code. Existing approaches may need to be improved to meet current standards.
10. Any required sidewalk shall be constructed prior to roadway paving. This note shall appear on the face of the final construction drawings.
11. The developer's engineer shall certify that there is adequate entering sight distance at the intersection of Harris Road SE and the interior plat road. Such certification shall note the minimum required sight distance, the actual sight distance provided, and a sight distance diagram showing the intersection geometry drawn to scale, topographic and landscaping features, and the sight triangle. The sight distance shall meet the requirements of the Kitsap County Road Standards. The certification shall also note necessary measures to correct and maintain the minimum sight triangle.

12. Any work within the County right-of-way shall require a Public Works permit and possibly a maintenance or performance bond. This application to perform work in the right-of-way shall be submitted as part of the SDAP process. The need for and scope of bonding will be determined at that time.

FIRE MARSHAL

1. The minimum fire flow requirements for one and two-family dwellings in subdivisions shall be 500 gallons per minute for thirty (30) minutes. One and two-family dwellings 5000 square feet or greater are also required to provide water for fire protection in the amount of 500 gallons per minute. However, they may use fire protection credits as listed in Table B103.3 to meet fire flow requirements, provided the total fire protection credits equal to or exceed 500 gallons per minute. EXCEPTIONS: 1) In areas where full fire flow is impractical, a residential sprinkler system may be substituted. 2) Permits for single family dwellings, manufactured, mobile, and modular dwellings on existing lot less than 5000 square feet. IFC Appendix B Amended by Kitsap County.
2. Water line size and location and the location of fire hydrants must be shown on SDAP plans. A letter of water availability indicating available fire flow from the water purveyor is required to be submitted to the Kitsap County Fire Marshal's office prior to the approval of any building permits.
3. Fire apparatus access roads are required and must be maintained. Any proposed revision to these roads must be submitted to, reviewed and approved by the Kitsap County Fire Marshal's Office. IFC 503 Amended by Kitsap County. Access roads shall comply with the following:
 - a) Unobstructed width of 20 feet and height of 13 feet 6 inches.
 - b) Shall be designed and maintained to support a 60,000-pound fire apparatus and be provided with an all-weather driving surface.
 - c) Dead end access roads exceeding 150 feet in length shall be provided with an approved turnaround.
 - d) Inside turning radius shall be a minimum of 25 feet (residential) 35 feet (commercial).
 - e) Access roads shall extend to within 150 feet of all portions of the exterior walls of the first story of the structure as measured by an approved route around the exterior of the structure or facility.
 - f) Road shall not be more than 12% grade.

HEALTH DISTRICT

1. Binding water availability letter will be required prior to final plat. The existing septic tank need to be pumped and abandoned per code.

18-00022 Preliminary Short Plat Approval
October 2, 2018

SOLID WASTE

1. Prior to SDAP approval, Waste Management (360) 674-3166 shall be contacted for information on implementing the solid waste/recycling storage requirements influenced by the service provider for the project. Pay particular attention to the access requirements of collection trucks. Documentation shall be provided from the solid waste/recycling service provider that their requirements for this project have been met.

Preliminary approval of this Short Subdivision will automatically expire five (5) years from the date of this letter. However, upon written request to the Department of Community Development by the original applicant and the current owner(s) of the subject property, at least thirty (30) days prior to expiration, a six (6) month extension may be granted.

Preparation of the Final Short Plat shall be done in accordance with Kitsap County Code 16.48. All applicable conditions of preliminary approval must be addressed with the submittal of Final Short Subdivision application. Submittals that do not address all conditions will be considered incomplete and returned without review. All of the above relevant conditions and any/all building setbacks and buffers established as conditions of approval must appear on the Final Short Plat.

If you have any questions or comments regarding this letter, please feel free to contact **Peggy Bakalarski** for Survey matters; **Candy Vickery** for Stormwater and Traffic matters; **Katharine Shaffer** for Land Use matters; **Greg Gentile** for Fire Marshal matters; all of whom can be reached at (360) 337-5777. Please contact **Kerrie Yanda** for Health District matters at (360) 337-5285.

Sincerely,

Peggy Bakalarski, Project Lead
