SHORELINE WEBINAR SERIES

Shore Friendly Kitsap is excited to announce a two-part webinar series with special guests from Coastal Geologic Services and Kitsap Conservation District. These **free** webinars are open to anyone who has an interest in learning more about Puget Sound and sustainable waterfront living. Check out the topics we will be covering below!

Webinar One: February 3rd, 2021 from 1 PM to 3 PM

Coastal Processes: How do beaches form?

Topics covered

- Geology of Puget Sound
- Slope Stability and Landslides
- Drift Cells
- Nearshore Habitats and The Impacts of Bulkheads
- Shoreline Vegetation Management

Webinar Two: February 10th, 2021 from 1 PM to 3 PM

Shoreline Restoration and Projects: How can we improve beaches for people and wildlife?

Topics covered

- How Restoration Differs from Erosion Control
- Restoration Project Case Studies
- Soft Shore Protection Case Studies
- Creating a Native Planting Plan
- Choosing Native Plants For Your Shoreline

To sign up for for these free webinars, please follow the link at the bottom of our newsletter!

It's Fry Time!

During this time of year, juvenile Chum Salmon are making their way down the Union River. For the past three years, the Hood Canal Salmon Enhancement Group has been monitoring the abundance, timing, and productivity of this protected species. They are currently looking for volunteers to cover outmigration shifts for the next several months. This is a great opportunity to learn about species identification and get hands on experience! Check out the link at the bottom of the newsletter to learn more.

Become A Stream Steward!

Are you inspired to connect with others to make a difference in the health of our ecosystems? If so, check out the Stream Stewards program from WSU!

This program provides Kitsap residents the opportunity to turn environmental knowledge into action. This is an annual, multi-day training where participants will learn about connections between our lands and waters and the life that depends on their health.

Topics include: Stream and Forest Ecology, Plants and Wildlife, Water Quality, Restoration, and opportunities to volunteer with local organizations. Please check out the link at the bottom of the newsletter to learn more and sign up!

About Shore Friendly Kitsap

Shore Friendly Kitsap is your waterfront partner.

Our mission is to empower Puget Sound waterfront landowners to create beautiful, environmentally friendly shorelines for themselves and generations to come.
