

KITSAP COUNTY

Washington East Kitsap Nearshore Inventory Access Points

During the Summer and early Fall of 2007, Kitsap County field crews inventoried the Eastern shoreline and collected a variety of information concerning environmental stressors and conditions.

This map shows access points to the nearshore environment. These are typically private access points on waterfront property, providing the homeowner access to their shoreline beach property.

THESE ARE NOT PUBLIC ACCESS LOCATIONS

Access points are found on an average of 12.7 per mile. 74% of them are constructed pathways, made of either concrete or wood construction. The remaining are typically a simple stone or dirt path.

THESE ARE NOT PUBLIC ACCESS LOCATIONS

This map was created from existing map sources, as well as field inventories of certain shoreline features. Determination of fitness for use lies with the user, as does the responsibility for understanding the accuracy and limitations of this data. While great care was taken in using the most current map sources available, there is no guarantee or warranty to its accuracy as to labeling, placement or location of any geographic features present within this data. These data are intended for informational purposes only, and should not be considered authoritative for engineering, navigational, surveying, and other site-specific uses. Kitsap County assumes no legal liability arising from the use of this data in a manner not consistent with the original intent. In no event shall Kitsap County be liable for damages of any kind, including loss of anticipated benefits arising from the use of this data.

* THIS MAP IS NOT A SUBSTITUTE FOR FIELD SURVEY *

Data Sources:
Hydrology data from WA, State Dept. of Natural Resources (10/2007)
Transportation information from Kitsap and surrounding counties.
Digital Elevation Model created from a variety of sources.
by David Finlayson, School of Oceanography, University of Washington

Please support public access to publicly funded data so that projects like this can be made possible.

Map Date: February 14, 2008

- Beach Access Points**
- Material**
- ▲ Metal (2%)
 - ▲ Dirt/Path (10%)
 - ▲ Stone (14%)
 - ▲ Wood (25%)
 - ▲ Concrete (49%)
- Right-of-Ways**
- State HWY/Route
 - Principal Arterial
 - Secondary Arterial/Collector
 - Railroad
- Watercourses (defined in WAC 222-16-030)**
- (S) Designated Shoreline of the State
 - (F) Fish Habitat
 - (N) Non-fish Habitat
 - (U) Unknown, unmodeled hydrographic feature.
- Waterbodies (defined in WAC 222-16-030)**
- Bay, estuary, Puget Sound
 - Lake, Pond, Reservoir
 - Marsh, wetland, swamp, bog
