PROGRAMMATIC DETERMINATION OF NONSIGNIFICANCE

Description of Proposal: Ordinance related to Bike Parking and Electric Vehicle Charging Code Update, Kitsap County Code, Title 17. The Kitsap County Code is subject to continuous review and may be amended in future years. The County is beginning the periodic update to the Comprehensive Plan and anticipate that changes to the parking code may be some of the associated development regulations that will change. This could include additional incentives for bicycle parking and electric vehicle charging. Future amendments will be consistent with and implement the goals and policies in the Kitsap County Comprehensive Plan and subject to applicable application review and associated permitting, including consistency with SEPA at a project level and environmental requirements, such as the Critical Areas Ordinance and the Stormwater Drainage Ordinance.

This non-project action:

- Expands the requirements for bicycle parking standards and adds incentives to encourage bicycle parking.
- Adds requirements and incentives for electric vehicle charging.

This non-project action does not:

- Revise Comprehensive Plan or Sub-Area Plans Vision, Goals and Policies.
- Apply in the right-of-way.

Proponent: Kitsap County Department of Community Development

Lead Agency: Kitsap County

Location of proposal, including street address, if any: This non-project action applies throughout unincorporated Kitsap County. Bicycle parking requirements are only in the Urban areas, LAMIRDS, and Rural Commercial and Rural Industrial zones. Electric Vehicle charging requirements apply in all zones.

The lead agency for this programmatic proposal has determined that the Ordinance does not have a probable significant adverse impact on the environment. Accordingly, an environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This programmatic DNS is issued under WAC 197-11-340(2) and is not administratively appealable under chapter 21.04 KCC. The lead agency has extended the 14-day comment period through October 17, 2022.
