

Toward a Natural Resources Asset Management Plan for Kitsap County

Workshop #1 Agenda

Date: February 2, 2024, 9:00-11:00 am PT

Goals:

- Discuss the scoring methods for specific attributes in the pilot watersheds.
- Share County-wide maps with existing Levels of Service based on updated scoring methods.
- Identify a list of efforts, programs, and policies that could be leveraged to achieve Desired Levels of Service in the pilot watersheds.

9:00 am	Welcome – Dana Stefan and Elizabeth McManus (Ross Strategic, Facilitators)
9:05 am	2024 Anticipated Next Steps – Ross Strategic <ul style="list-style-type: none"> - Overview of 2024 milestones - Discuss interest in potential pilot watershed site visit
9:15 am	Interim Desired Levels of Service (DLOS) for pilot watersheds: Discuss Scoring Methods for Three Attributes - WCAEF <ul style="list-style-type: none"> - Based on feedback from the Core Team, discuss and revisit scoring options for the following attributes: <ul style="list-style-type: none"> o Fish passage barrier (currently presence/absence) o BIBI score (currently aggregated to the stream system) o Shellfish growing area (water quality for shorelines – currently a complex calculation) - Discuss any reactions or considerations regarding on the ground reality and monitoring for the discussed attributes and potential scoring methods
9:45 am	Updated Level of Service (LOS) Scoring across the County: Effects on DLOS Mapping - WCAEF <ul style="list-style-type: none"> - Provide a brief update on the existing LOS across the County based on revised Cartegraph scoring and what this means for updating full county maps to align with KNRAMP
9:55 am	Working Towards DLOS in the Pilot Watersheds: Policies, Programs, and Projects – Ross Strategic, WCAEF <ul style="list-style-type: none"> - Identify opportunities to work towards DLOS in the pilot watersheds, including types of projects that could be considered and existing policies and programs applicable in the watersheds that could be leveraged. - Discussion questions: <ul style="list-style-type: none"> o If there was one thing that you could do to improve and one thing that you could do to preserve the state of the streams in the pilot watersheds, what would that be? What type of efforts would make that possible? o Of the type of efforts mentioned, what is already being done in the watershed? What could be done more of or what untapped opportunities should we consider?

10:35 am	Updates from Partners - All <ul style="list-style-type: none">- Suquamish Tribe- Port Gamble S'Klallam Tribe- Kitsap County: Comprehensive Plan Update Specific to KNRAMP (15 mins)
11:00 am	Adjourn
