 - C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured or a letter of self-insurance from a public entity risk pool which waives the requirement.
 - D. Certificates of insurance will show the certificate holder as Kitsap County and indicate "care of" the appropriate County office or department. The address of the certificate holder will be shown as the current address of the appropriate County office or department.
 - E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.

ATTACHMENT B: STATEMENT OF WORK

Scarlet Road – Behavioral Health Program

Background

In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of mental health and chemical dependency programs and services. In September 2013, the Kitsap County Board of Commissioners passed a resolution authorizing a sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs. The goal of this tax is to prevent and reduce the impacts of disabling chemical dependency and mental illness by creating and investing in effective, data-driven programs for a continuum of recovery-oriented systems of care.

Project Description

Scarlet Road is developing a Behavioral Health Program designed to strengthen aftercare supports for survivors through integrated case management and therapeutic services. Launching in July 2026, the program will expand upon Scarlet Road's existing case management framework by adding on-site therapy options and creating outreach opportunities for individuals not yet ready to engage in formal services. The goal is to reduce rates of return and promote long-term healing by addressing underlying trauma and supporting continuity of care.

- Improve the health status and wellbeing of Kitsap County residents.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.
- Reduce the number of chemically dependent and mentally ill youth and adults from initial or further criminal justice system involvement.
- Reduce the number of people in Kitsap County who cycle through the criminal justice systems, including jails and prisons.

This program will serve approximately 15 individuals.

Project Activities

To increase the variety and options of nontraditional behavioral health programs in Kitsap County, Scarlet Road will employ qualified clinical staff and establish advisory oversight to guide program development for survivors of sexual exploitation. A licensed mental health counselor (LMHC) will be hired to design, build, and launch the behavioral

health program. An Advisory Review Committee of 3–5 experienced mental health professionals will provide quarterly oversight, reviewing program structure, evaluating progress, and offering clinical guidance. The program will offer low-barrier licensed mental health counseling through appointment-based and drop-in sessions, as well as a 12-week therapeutic group, ensuring survivors have access to trauma-informed care that promotes stability, resiliency, and self-determined goal achievement.

Project Design

The program will be built on a sustainable infrastructure and evidence-based clinical model tailored to the needs of sexual exploitation survivors. All required clinical compliance elements, including HIPAA standards, Washington State behavioral health requirements, and ethical guidelines, will be implemented. A comprehensive program procedures manual will be developed, covering clinical modalities, therapy guidelines, supervision protocols, documentation practices, reporting systems, and internal policies adapted from Scarlet Road's organizational standards. Model fidelity measures and evaluation tools will be established to track outcomes and support continuous quality improvement. The program will deliver individual and group therapy, along with survivor-specific therapeutic programming, utilizing data tracking and reporting systems to measure improvements in resiliency, mental wellness, and reduced reliance on external crisis services.

Project Outcomes and Measurements

The contractor will participate in the Evaluation Plan for Treatment Sales Tax Programs. Programs or services implemented under the Treatment Sales Tax are reviewed by the Community Advisory Committee and monitored by the Human Services Department. The Contractor will have an evaluation plan with performance measures developed in partnership with Sound Within contracted Epidemiologist. The emphasis will be on capturing data at regular intervals that can be used to determine whether Treatment Sales Tax funded programs met expectations. Some common measures will be identified that will be reported on. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs).
- Level of change occurring among participants (outcomes).
- Return-on-investment or cost-benefit (system savings) if evidence-based.
- Adherence to the model (fidelity).
- Common measures reported through Kitsap Public Health District

Data will be collected to monitor the following goals and objectives.

Goal #1:

Increase the variety and options of nontraditional behavioral health programs in Kitsap County by developing a behavioral health program that meets the needs of sexual exploitation survivors.

Objective 1: Employ qualified clinical staff and establish advisory oversight to guide program development.**Activities:**

- Hire a licensed mental health counselor (LMHC) to design, build, and launch the behavioral health program.
- Establish an Advisory Review Committee consisting of 3–5 seasoned mental health professionals who will meet quarterly to review program structure, evaluate progress, and provide clinical guidance.

Objective 2: Create the structure, infrastructure, and compliance systems required for a sustainable mental health program.**Activities:**

- Identify and implement all required clinical compliance elements, including HIPAA standards, Washington State behavioral health agency requirements, documentation practices, and ethical guidelines.
- Develop a program procedures manual, including:
 - Clinical model and modalities
 - Guidelines for individual and group therapy
 - Reporting systems, supervision protocols, and documentation standards
 - All required internal policies and procedures
- Adapt existing Scarlet Road organizational policies and handbooks to meet behavioral health standards.
- Establish model fidelity measures and evaluation tools, including data tracking and reporting systems.
- Design and plan the curriculum for 12-week therapeutic group programming.

Objective 3: Launch behavioral health services and begin delivering trauma-informed therapeutic care.**Activities:**

- Begin offering licensed mental health counseling sessions to sexual exploitation survivors.
 - Deliver individual therapy, group therapy, and survivor-specific therapeutic programs based on the completed clinical model.
-

- Utilize established reporting and evaluation tools to track outcomes and improve service quality.

Goal 2: Establish Low-Barrier Crisis Services for Hard-to-Engage Survivors

Activity: Provide licensed crisis mental health services for survivors of sexual exploitation to increase stability and reduce reliance on external crisis services.

Objectives & Implementation:

1. Offer Low-Barrier Licensed Counseling

- Provide appointment-based counseling sessions for survivors in Scarlet Road's wraparound aftercare program (3–5+ sessions available per week).
- Provide drop-in counseling sessions for survivors through outreach and aftercare programs to address immediate crisis needs (3+ assessment/drop-in sessions per week; 3 emergent crisis management sessions available).
- Launch a 12-week therapeutic group session.
- Ensure 15+ unduplicated survivors access licensed mental health services during the first launch phase (July–December 2026).

2. Promote Client Self-Determined Goal Achievement

- Clients who access in-house counseling services will actively work toward self-identified goals.
- Mental wellness improvements will be measured using the Connor-Davidson Resilience Scale (CD-RISC) to track progress from baseline.

3. Demonstrate Increased Stability and Reduced External Crisis Needs

- Clients who engage in counseling for 3+ months or participate in 8+ sessions will demonstrate improved stability and resilience.
- Expected outcomes include:
 - 50% of clients reporting strengthened resiliency from pre- to post-assessment (measured via CD-RISC).
 - 75% of clients articulating a plan for maintaining ongoing wellness at therapy graduation.

Key Performance Measures:

- Number of clients referred to therapy
 - Number of assessments completed for outreach participants
 - Number of clients who engage in therapy
 - Number of clients attending 3+ sessions
 - Total number of one-on-one counseling sessions provided
 - Total number of pre assessments completed
 - Total number of post assessments completed
 - Total number of clients reporting strengthened resiliency
-

- Total number of clients that have participated in the program for 3+ months, can articulate a plan for maintaining ongoing wellness upon graduation or at the end of the grant cycle
