Certificates, policies and endorsements scheduled to expire before completion of services will be renewed before expiration. If the Contractor's liability coverage is written as claims-made-policy, then the Contractor must evidence the purchase of an extended-reporting period or "tail" coverage for a three-year period after completion of the services.

Any certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.
- C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured or a letter of self-insurance from a public entity risk pool which waives the requirement.

- E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.

No costs incurred after the effective date of termination will be paid.

In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.

SECTION 9. ASSIGNMENT, DELEGATION AND SUBCONTRACTING

ATTACHMENT B: STATEMENT OF WORK

Suquamish Tribal Government – Transportation Services

Background

In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of mental health and chemical dependency programs and services. In September 2013, the Kitsap County Board of Commissioners passed a resolution authorizing a sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs. The goal of this tax is to prevent and reduce the impacts of disabling chemical dependency and mental illness by creating and investing in effective, data-driven programs for a continuum of recovery-oriented systems of care.

Project Description

This project will provide behavioral health services within the Outpatient Services level of the continuum of care and addresses the following strategic goals:

- Improve the health status and wellbeing of Kitsap County residents.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.

The Suquamish Transportation Services project expands equitable access to behavioral health, recovery, and therapeutic court services by eliminating transportation barriers for residents across Kitsap County. Reliable transportation is a critical factor in treatment retention—missed appointments can delay program completion by six or more weeks, increasing cost burden and reducing stability. This program ensures individuals can consistently access behavioral health care, court appearances, housing resources, employment opportunities, and recovery programs.

By providing coordinated transportation to treatment, housing, and essential appointments, the project directly supports engagement, reduces missed appointments, and promotes sustained participation in recovery and stabilization services. Case studies will compare individuals with and without transportation support to establish a baseline for improvements in engagement and stability.

Serving 110 individuals annually.

Project Activities

The program serves individuals engaged in behavioral health or recovery treatment, residents of recovery housing, justice-involved populations, and low-income or unhoused individuals in the Suquamish community and greater North Kitsap region, providing coordinated rides to treatment, housing, court, and employment services.

Project Design

The Suquamish Tribal Government will hire a Transportation Manager /Coordinator to support the project activities part time, with 0.4 FTE being dedicated to the Behavioral Health client service goals of this project.

The Transportation Coordinator will:

- 1) Conduct assessment, planning, and evaluation activities to establish Suquamish Van Service by June 2026.
- 2) Coordinate with Suquamish Health Division providers to establish unified response system for transportation of individuals to behavioral health appointments, and test use-case scenarios by August 2026.
- 3) Deliver a full demand-responsive service launch plan, including contractor procurement, staff training, software strategy, asset management requirements, and all transportation-data updates, with operational readiness confirmed by December 2026.

Outcomes / Impact

Transportation access will improve participation and retention in treatment and recovery programs, while reducing missed appointments, recidivism, and emergency service utilization. Participants are expected to demonstrate measurable improvements in personal and social stability, including:

- **Treatment Engagement & Retention:**
 - Increased attendance at scheduled appointments.
 - Reduction in missed or canceled appointments.
 - Higher completion rates for treatment programs.
 - **Housing Stability:**
 - Increased percentage of participants maintaining or obtaining stable housing.
 - Reduced shelter use or homelessness among participants.
 - Transportation provided for housing-related needs (e.g., shelter access, landlord meetings).
 - **Employment & Education:**
 - More participants obtaining or maintaining employment.
 - Increased participation in education or training programs.
 - Rides provided for interviews, training, or school attendance.
 - **Justice System Impact:**
 - Fewer missed court dates for therapeutic or recovery courts.
 - Reduced re-offense or recidivism rates.
 - Improved compliance with probation or court-ordered treatment.
-

- **Health & Recovery Outcomes:**

- Increased access to medical, behavioral health, and recovery services.
- Reduction in emergency room or crisis service use.
- Improved quality of life and self-reported recovery stability.

Sustainability & Coordination

Transportation services are integrated with case management, behavioral health, and recovery support programs to ensure continuity of care. The project leverages partnerships with local transit agencies, nonprofits, and treatment providers to maximize efficiency and sustainability. Long-term planning will determine the need for ongoing local sales tax support or identify other funding streams to sustain the program beyond the initial grant period.

Project Outcomes and Measurements

The contractor will participate in the Evaluation Plan for Treatment Sales Tax Programs. Programs or services implemented under the Treatment Sales Tax are reviewed by the Community Advisory Committee and monitored by the Human Services Department.

The Contractor will have an evaluation plan with performance measures. The emphasis will be on capturing data at regular intervals that can be used to determine whether Treatment Sales Tax funded programs met expectations. Some common measures will be identified that will be reported on. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs).
- Level of change occurring among participants (outcomes).
- Return-on-investment or cost-benefit (system savings) if evidence-based.
- Adherence to the model (fidelity).
- Common measures (identified by the Community Advisory Committee and Kitsap County Human Services staff that all programs must report on).

Data will be collected to monitor the following goals and objectives identified by the Contractor:

Goal 1: Improve equitable access to behavioral health, recovery, and therapeutic court services through reliable transportation.

Objectives:

1. Provide consistent, on-demand transportation for individuals needing access to treatment, court, employment, and recovery supports.
2. Reduce missed and canceled behavioral health or recovery appointments due to lack of transportation.
3. Increase engagement and retention in recovery, treatment, and court-mandated programs.

Metrics (Quarterly Reporting unless YTD in Q4):

- Total number of rides provided.
- Total number of unduplicated riders served. **YTD**
- Total miles driven for behavioral health, court, housing, and employment destinations.
- Number and percentage of clients who attended all scheduled treatment or recovery appointments. **YTD**
- Number and percentage of missed/canceled appointments reduced post-transportation support (compared to baseline).
- Number of clients completing treatment programs after receiving transportation support.
- Reduction in hospital or emergency room visits linked to transportation access.

Goal 2: Coordinate and sustain transportation within an integrated network of recovery and support services.

Objectives:

1. Collaborate with behavioral health providers, recovery housing, and court systems for seamless service integration.
2. Develop partnerships and long-term funding strategies for sustainability.
3. Gather participant feedback to improve satisfaction and quality of service delivery.

Performance Metrics:

- Number of partner agencies coordinating transportation referrals.
- % of rides connected to case management, behavioral health, or housing support services.
- Client satisfaction survey results (% reporting improved access and reduced barriers). **YTD**
- Sustainability plan updates and new partnerships established.

Data Collection

The Contractor will provide a Quarterly Report to the Kitsap County Human Services Department by April 30, July 31, October 31, 2026 and January 31, 2027 each year

funding is received under this grant detailing progress made on program outcomes during the quarter, what other funding sources have been investigated, and what the future potential for alternative funding is.
