 - E. The Contractor's insurance will apply separately to each insured against whom claim is made or suit is brought subject to the limits of the insurer's liability.

-

All coverage for subcontractors will be subject to all of the requirements stated in these provisions.

- G. The insurance limits mandated for any insurance coverage required by the Contract are not intended to be an indication of exposure, nor are they limitations on indemnification.
- H. The Contractor will maintain all required policies in force from the time services commence until services are completed. Certificates, policies and endorsements scheduled to expire before completion of services will be renewed before expiration. If the Contractor's liability coverage is written as claims-made-policy, then the Contractor must evidence the purchase of an extended-reporting period or "tail" coverage for a three-year period after completion of the services.

 - B. The Contractor will furnish the County with properly executed certificates of insurance or a signed policy endorsement which will clearly evidence all insurance required in this Section before work under this Contract shall commence. The certificate shall, at a minimum, list limits of liability and coverage. The certificate will provide that the underlying insurance contract may not be canceled, or allowed to expire, except on 30-days' prior written notice to the County. Any certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.
 - C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured or a letter of self-insurance from a public entity risk pool which waives the requirement.
 - D. Certificates of insurance will show the certificate holder as Kitsap County and indicate "care of" the appropriate County office or department. The address of the certificate holder will be shown as the current address of the appropriate County office or department.
-

E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.

F. **Evidence of such insurance**, as required above, shall be provided to the County at the following address:

No costs incurred after the effective date of termination will be paid.

In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the

ATTACHMENT B: STATEMENT OF WORK

Kitsap Brain Injury

Background

In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of mental health and chemical dependency programs and services. In September 2013, the Kitsap County Board of Commissioners passed a resolution authorizing a sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs. The goal of this tax is to prevent and reduce the impacts of disabling chemical dependency and mental illness by creating and investing in effective, data-driven programs for a continuum of recovery-oriented systems of care.

Project Description

Fishline's mental health program provides accessible counseling and outreach to individuals and families in the North Kitsap community.

- Improve the health status and wellbeing of Kitsap County residents.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.
- Reduce the number of chemically dependent and mentally ill youth and adults from initial or further criminal justice system involvement.
- Reduce the number of people in Kitsap County who cycle through the criminal justice systems, including jails and prisons.

This program will serve approximately 75 individuals.

Project Activities

This project will continue to provide a licensed mental health therapist through a subcontract with a licensed behavioral health provider, assessing 45 people per quarter for mental health treatment, ensuring all enrolled individuals are contacted within 3 business days of initial request, and providing short-term therapeutic intervention to 15 people per month.

This short-term intervention will have the following primary objectives: de-escalating crises, developing a comprehensive psychosocial assessment, and facilitating connections to other services as appropriate, and leading staff trainings on evidence-based behavioral health topics. If a client needs longer treatment or a maintenance

program, the counselor will make an appropriate referral. The output of this program will include empirical evidence of the progress made during treatment and a record of referrals to outside services as appropriate. While the therapist is providing counseling, Fishline case managers will, in tandem, help clients with non-therapeutic interventions such as addressing needs for medical insurance, housing, food, and other necessities. Participants will experience an improved quality of life and feel more confident in addressing their own mental health concerns.

Coordinating with Fishline case managers, the Fishline, Poulsbo Fire CARES, and the Poulsbo Police Navigator, the therapist will ensure seamless therapy services are available with minimal delay. The therapist will also work with in-house partner agencies (the National Alliance on Mental Illness, American Legion, Kitsap Department of Aging and Long-Term Care, Washington State Department of Social and Health Services, and Kitsap Community Resources).

Project Design

Fishline's subcontracted therapist will utilize screening tools such as the PHQ-9 (Patient Health Questionnaire), the GAD-7 (General Anxiety Disorder) and ACEs (Adverse Childhood Experience) as a means of assessment for each client and obtain progress updates every three months. Cognitive Behavior Therapy, Solutions Focus Therapy and Motivational Interviewing methods will be provided as needed based on symptoms and necessity. The outcome of this process will include empirical evidence of the progress made in treatment and outputs include records of referrals where outside services are utilized.

Participant satisfaction surveys are used throughout the client's enrollment as well as at exit from the program to help track achievements of goals and program effectiveness. An additional survey will be conducted at specific intervals post-treatment to determine the longitudinal effect of our services as well as adherence to treatment and gauge additional needs.

Fishline will incorporate interdisciplinary weekly team meetings between our Social Services Manager, Case Managers, and the Fishline Therapist. The purpose will be to eliminate barriers to care and take a more whole-person approach to our services.

Working with AMFM Healthcare, Fishline will develop and utilize SMART objectives to quantify our program's efficacy to demonstrate more clearly outcomes we see in our client's daily.

Clients will sign a Release of Information allowing the Fishline Therapist to share general demographic information with Fishline's case managers, enabling Fishline to contact individuals who undergo therapeutic sessions after exiting the program to discuss satisfaction and outcomes.

Project Outcomes and Measurements

The contractor will participate in the Evaluation Plan for Treatment Sales Tax Programs. Programs or services implemented under the Treatment Sales Tax are reviewed by the Community Advisory Committee and monitored by the Human Services Department. The Contractor will have an evaluation plan with performance measures developed in partnership with Sound Within contracted Epidemiologist. The emphasis will be on capturing data at regular intervals that can be used to determine whether Treatment Sales Tax funded programs met expectations. Some common measures will be identified that will be reported on. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs).
- Level of change occurring among participants (outcomes).
- Return-on-investment or cost-benefit (system savings) if evidence-based.
- Adherence to the model (fidelity).
- Common measures reported through Kitsap Public Health District

For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).
