

Bath Salts

(Synthetic Stimulants)

Bath Salts are also known as: Bliss, Blue Silk, Cloud Nine, Drone, Energy-1, Ivory Wave, Lunar Wave, Meow Meow, Ocean Burst, Pure Ivory, Purple Wave, Red Dove, Snow Leopard, Stardust, Vanilla Sky, White Dove, White Knight and White Lightening.

What are bath salts?"

Bath salts are synthetic cathinones (central nervous system stimulants) designed to have effects similar to those produced by cocaine, methamphetamine and ecstasy. These substances are often marked as "bath salts," "research chemicals," "plant food," and labeled "not for human consumption." Marketing bath salts in this manner allows the manufacturer to hide the true reason for their products.

How are bath salts different from spice?

Bath salts contain Khat, and come in a crystalized or powdered form. Spice is sprayed with Khat on various herbs "also know as potpourri," and smoked like marijuana.

How are bath salts taken?

Bath salts are generally taken by sniffing or snorting. They can also be taken orally, smoked or injected into the veins.

What is their effect on the mind?
