

## 5213PRO Occupation In-Demand

Effective Date: August 2019

Last Modified: January 2021

The Occupations In-Demand list is published annually by the Washington State Employment Security Department Labor Market and Economic Analysis (LMEA) Division. WIOA Specialists use the Occupations In-Demand list to assist WIOA participants with training in industry sectors that need skilled employees. To provide WIOA approved training funds to WIOA participants, the training must be linked to in-demand industry sectors or occupations in the local area. Coupled with [LMI Occupational In-Demand Procedure](#) and this Olympic Workforce Development Council (OWDC) procedure details the process to update occupation in-demand listing.

### **TARGET:** Balanced or In-Demand occupation updated to In-Demand.
