Regional Service Strategies. (20 CFR 679.510(a)(1)(ii))

- a. Strategic Details and Interventions:** Based on the comprehensive regional analysis, identify and describe any services and strategies that will be developed on a regional basis to address specific challenges, opportunities, or targeted populations. Provide specific strategies, tactics, and service models that will be implemented, including a baseline for evaluating their effectiveness and measurable goals.

- b. Cooperative Agreements:** Complete the [Regional Service Strategies Framework \(Attachment B\)](#) **or** submit any executed cooperative service delivery agreement(s) that outline how local service providers and partners will ensure integrated and accessible services within the local one-stop delivery system. The agreements should include specific initiatives to improve services for individuals with disabilities and other target populations, such as, staff cross-training, technical assistance, data sharing, employer engagement, and other cooperative initiatives.

Multi-Regional Focus: If applicable, identify any contiguous regions involved in a collaborative service approach. Clarify how this focus was established and its alignment with overarching workforce system objectives.

Key Elements of Service Delivery

1. **Access to Services:** WIOA mandates that individuals, including dislocated workers, youth, and adults, have access to a range of employment and training services. This includes access to career counseling, job search assistance, labor market information, and support in identifying career pathways.
2. **Comprehensive Career Services:** WIOA requires the development and provision of comprehensive career services that are designed to assist individuals in achieving their employment goals. These services may include skills assessments, development of individual employment plans, and guidance on education and training opportunities.
3. **Training and Education:** WIOA encourages training and education that leads to industry-recognized credentials and ultimately employment in high-demand occupations. This may involve support for post-secondary education and on-the-job training programs.
4. **Employer Engagement:** Service delivery under WIOA also involves establishing connections with employers to understand their workforce needs, provide recruitment and training services, and facilitate the placement of job seekers into employment opportunities.
5. **One-Stop Career Centers:** WIOA mandates the establishment of One-Stop Career Centers where individuals can access an array of employment and training services, including job search assistance, education and training programs, and labor market information.
6. **Supportive Services:** To help individuals overcome barriers to employment, supportive services such as transportation, childcare, and assistance with work-related expenses may be offered.
7. **Performance Metrics:** Service delivery in WIOA includes the monitoring and evaluation of performance outcomes, both for service providers and individuals served, to ensure that the services are effective and lead to successful employment outcomes.
