This checklist serves as a decision making tool when selecting a treatment services location; will help you identify accessibility problems; and suggests possible corrective action to meet your obligations under the state regulations. DBHR requires the provider to submit this completed checklist including projected dates of opening for new agencies and adding sites, also including agency relocations. For each "no," indicate a corrective action to be taken and the projected date of completion.

Always refer directly to ADA Accessibility Guidelines (ADAAG) (<http://www.access-board.gov/guidelines-and-standards/buildings-and-sites/about-the-ada-standards/background/adaag>) and your state and local codes for complete technical requirements before making any access improvements. This checklist provides references to the applicable sections of ADAAG at the beginning of each group of questions. If you need help understanding the federal, state, or local requirements, contact your Disability and Business Technical Assistance Center.

Review your Implementation Plan each year to re-evaluate whether more improvements have become readily achievable. To obtain a copy of the ADAAG or other information from the U.S. Department of Justice access the web site at <http://www.ada.gov/> or call 1-800-514-0301 (Voice); 1-800-514-0383 (TTY). Spanish language service is also available.
