III. AVAILABLE FUNDING

Approximately \$7,000,000 for a 12-month period between January 1, 2023 through December 31, 2023 is to be allocated to projects addressing the Board of Commissioner’s Strategic Goals. Programs must identify and select objectives and strategies prioritized in the 2021 Behavioral Health Strategic Plan developed to achieve the following policy goals:

- Improve the health status and wellbeing of Kitsap County residents.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.
- Reduce the number of chemically dependent and mentally ill youth and adults from initial or further criminal justice system involvement.
- Reduce the number of people in Kitsap County who cycle through the criminal justice systems, including jails and prisons.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.

- Increase the number of stable housing options for chemically dependent and mentally ill residents of Kitsap County.

IV. PERIOD OF PERFORMANCE

Funding under this grant program is allocated for a 12-month period. The period of performance for services solicited under this RFP will begin January 1, 2023 and end December 31, 2023. All funds awarded must be used during this 12-month period.

Carry over of unspent funds into the next program year is not allowed. Initial funding is not an assurance or guarantee of ongoing operational funding. The CAC places a high value on maintaining availability of funding for meritorious proposals without regard to prior funding history. Proposers are cautioned not to assume a commitment to future funding based on the receipt of funds in prior years. The funding process is competitive and funding recommendations are made based on the relative merits of all proposals received in each yearly cycle.

V. PURPOSE AND SCOPE OF PROJECT

Kitsap County seeks to assure that citizens and policy makers spend the funds collected in an accountable and transparent manner, with community input and support, and with measures to determine the effectiveness of these publicly funded investments. The County will require appropriate oversight, accountability, and status and progress reports for programs supported with the TST. **Each funded project or program will be reviewed for impact in the following areas:**

1. Decrease the impact of systemic racism on the mental health and well-being of Kitsap County's communities of color.

Behavioral health disparities result in differences in outcomes and access to services related to mental health and substance misuse which are experienced by groups based on their social, ethnic, and economic status. Racial/ethnic, gender, and sexual minorities often suffer from poor mental health outcomes due to multiple factors including inaccessibility of high-quality mental health care services, cultural stigma surrounding mental health care, discrimination, and overall lack of awareness about mental health.

To improve access to quality services for underserved populations, the proposer should ensure that its activities will be responsive to the cultural and linguistic needs of underserved populations. Examples of cultural and linguistic responsiveness include, but are not limited to, partnering with programs that serve these populations, ensuring community representation with regard to study protocol development and dissemination of materials, and when possible, hiring bilingual/bicultural staff for the project to work directly with participants.

In addition, culturally responsive skills need to be developed to improve client engagement in services, therapeutic relationships between clients and providers, and treatment retention and outcomes. Cultural competence is an essential ingredient in decreasing disparities in behavioral health. The development of cultural competence can have far-reaching effects not only for clients, but also for

providers and communities. Cultural competence improves an organization's sustainability by reinforcing the value of diversity, flexibility, and responsiveness in addressing the current and changing needs of clients, communities, and the healthcare environment.

2. Increase Trauma Informed Care training, policies, and practices.

As awareness of trauma and its effects continue to permeate our organizations and community, we recognize the need to invest in strengthening a system of care that is trauma informed. Many individuals who seek treatment in behavioral health settings have histories of trauma, but they often don't recognize the significant effects of trauma in their lives; either they don't draw connections between their trauma histories and their presenting problems, or they avoid the topic altogether. Likewise, treatment providers may not ask questions that elicit a client's history of trauma, may feel unprepared to address trauma-related issues proactively, or may struggle to address traumatic stress effectively within the constraints of their treatment program, the program's clinical orientation, or their agency's directives. By recognizing that traumatic experiences and their emotional consequences tie closely into behavioral health problems, front-line professionals and community-based programs can begin to build a trauma informed environment.

Key steps include meeting client needs in a safe, collaborative, and compassionate manner; preventing treatment practices that retraumatize people with histories of trauma who are seeking help or receiving services; building on the strengths and resilience of clients in the context of their environments and communities; and endorsing trauma-informed principles in agencies through support, consultation, and supervision of staff. Additionally, procedures are in place to support staff with trauma histories and/or those experiencing significant secondary traumatic stress or vicarious trauma, resulting from exposure to working with individuals with complex trauma.

3. Program Evaluation

All funded organizations must participate in the Evaluation Plan for TST Programs. Programs or services implemented under the TST are monitored by the Citizens Advisory Committee. Grantees will have an evaluation plan with performance measures developed for each funded proposal. This plan is developed in partnership with Kitsap Public Health District staff. The emphasis will be on capturing data at regular intervals that can be used to determine whether TST funded programs met expectations. Some common measures will be identified that programs will need to report. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs) *required*
- Level of change occurring among participants (outcomes) *required*
- Return-on-investment or cost-benefit (system savings) *strongly encouraged*
- Adherence to the model (fidelity) *required if applicable*

- Common measures (to be identified by the Citizens Advisory Committee and Kitsap Public Health District staff that all programs must report) *required if applicable*

Promising, best, and innovative practices will be considered for funding, but must include a robust evaluation process. Preference will be given to evidence-based programs that demonstrate fidelity based on project data for fidelity measures.

4. Collective Impact

The Kitsap County Board of Commissioners have recognized Collective Impact as a framework for making it possible for local behavioral health service providers to work together to help solve complex social problems, such as mental illness and chemical dependency. By working together with behavioral health partners from different sectors of the community, Kitsap County can transform a fragmented system of behavioral health programs into a coordinated system that is working towards improving the overall health of the community. An example of sectors working together for mutual benefits would include behavioral health treatment providers and housing programs. Housing advocates in Kitsap County have identified the lack of housing for individuals with behavioral health issues as one of their funding priorities. Behavioral health treatment providers have identified the lack of housing for individuals with behavioral health issues as a major gap in services. By working together these partners can develop and fund supportive housing programs that are mutually beneficial to both.

VI. ANTICIPATED SCOPE OF WORK

Kitsap County Human Services Department is requesting proposals for TST programs addressing the Board of Commissioner's Strategic Goals. Projects must implement interventions and programs that address a minimum of one Goal, Objective and Strategy from the list prioritized in the 2021 Behavioral Health Strategic Plan and outlined in Attachment B (page 19) of this Request for Proposal.

1. Attachment D – New Grant Proposal Evaluation Worksheet

Directions – Evaluation is the collection of information about a program in a systematic and defined manner to demonstrate success, identify areas for improvement and lessons learned. Every program has at least one end goal and

might have several – one or more activities are required to make progress toward meeting the goal. Progress is measured with one or more objectives that might cover an output (number of something) or outcome (change over time) due to the program. The type of outcome (column D) and expected timeframe for change (column E) should be defined. Objectives must follow the “SMART” guideline: specific, measurable, attainable, realistic, and time-bound (column C). Each objective should include an expected target result and completion date (“time-bound” part of column C).

2. Attachment E – Total Agency Budget Form

Directions – The purpose of the Total Agency Budget Form is to assess the financial capacity of the parent organization. Complete this form for the entire agency budget. The CAC consists of persons who do not have a conflict of interest and are in alignment with the Bylaws and Mission Statement of the CAC. New Grant Proposals will be individually evaluated using Attachment I: New Grant Proposal Evaluation and Scoring Form. The full Committee will evaluate expected client and system impact, and fulfillment of the strategic plan. In addition, proposals will be evaluated for cost/price reasonableness.

1. Request for Proposal Evaluation Process

The CAC members will individually evaluate and rate each proposal after which they will convene as a group and develop a list of questions for each proposal. **All Proposers will be required to provide written responses to questions about their proposals and attend Question and Answer Sessions.** The CAC will convene to develop written questions they have regarding each proposal the week of September 12, 2022. Proposers will be notified of their questions through Survey Monkey Apply by September 28, 2022. **Written responses must be submitted online in Survey Monkey Apply by Wednesday, September 28, 2022.**

Proposers will be scheduled for Mandatory Question and Answer Sessions the week of October 10-11th and 14, 2022. During this two-way conversation, proposers will have 20 minutes to address their written responses to the questions from the CAC and share additional information about their proposal they feel needs clarification. Evidence-Based Programs - Programs, services, strategies, activities, or approaches which have been shown through scientific research and evaluation to be effective at preventing and/or delaying an untoward outcome.

Health Disparities – Differences that exist among specific population groups in the United States in the attainment of full health potential that can be measured by differences in incidence, prevalence, mortality, burden of disease, and other adverse health conditions.

Health/Behavioral Health Equity – The state in which everyone has the opportunity to attain full health/behavioral health potential and no one is disadvantaged from achieving this potential because of social position or any other socially defined circumstance.

Health Inequity - Differences in health determinants and health outcomes that are the result of social and structural imbalances and are thus avoidable and preventable.

Historic Trauma - Cumulative emotional and psychological wounding, over the lifespan and across generations, emanating from massive group trauma experiences.

Implicit Bias – The automatic and often unconscious association people make between groups of people and stereotypes about those groups.

Inclusion - An outcome to ensure that diverse communities of color actually feel and/or are welcomed. Inclusion outcomes are met when you, your institution, and your program are truly inviting to all. To the degree to which communities of color are able to participate fully in the decision-making processes and development opportunities within an organization or group.

In-Kind Contributions - In-kind contributions include goods or services, other than cash.

Examples of in-kind gifts include:

- Goods, like computers, software, furniture, and office equipment, for use by your organization or for special event auctions
- Services, like meeting space, photocopy and mail services, and administrative/financial support
- Expertise, like legal, tax, or business advice; marketing and website development; and strategic planning
- Cash equivalents, like stocks, bonds, mutual funds

Innovative Programs – Programs that introduce new ideas, methods and concepts that have not yet been researched however have some scientific research or data showing positive outcomes.

Licensed Counselor - A licensed marriage and family therapist, licensed mental health counselor, licensed advanced social worker, or licensed independent clinical social worker regulated under chapter 18.225 RCW.

Matching Funds – Contributions of cash.

Measurable Outcomes - Outcomes are benefits or changes for individuals or populations during or after participating in program activities. Outcomes may relate to behavior, skills, knowledge, attitude, values, condition, or other attributes. To measure outcomes, the service

must be able to provide evidence that the outcome was or was not achieved. Below is an example of an individual measurable outcome objective:

- 90% of participants successfully completing the program will not reoffend during the subsequent 18 months.
- 85% of participants remain drug free (for example, no positive UA results) during the current quarter.

Medicaid – The federally funded social health care program for families and individuals with limited resources. In Washington State, Medicaid is called Apple Health.

Model Fidelity - The strategies that monitor and enhance the accuracy and consistency of an intervention to ensure it is implemented as designed, and that each component is delivered in a comparable manner to all study participants over time.

Other – Budget line items that must be defined and excludes, “miscellaneous” as an accepted description.

Promising Programs - Programs, services, strategies, activities, or approaches that have some scientific research or data showing positive outcomes in delaying an unfavorable outcome, but do not have enough evidence to support generalizable conclusions.

Return on Investment (ROI) - A performance measure used to evaluate the efficiency of an investment or to compare the efficiency of several different investments. ROI measures the amount of return on an investment relative to the investment’s cost. To calculate ROI, the benefit (or return) of an investment is divided by the cost of the investment, and the result is expressed as a percentage or a ratio.

Supplanting - Means to “replace” or “take the place of.” Existing funds for a project and its activities may not be displaced by TST funds and reallocated for other organizational expenses. TST funds must not replace those funds that have been appropriated for the same purpose.

Supportive Housing – A combination of stable housing and behavioral health services intended as a cost-effective way to help people with mental illness or chemical dependency live more stable, productive lives. Services may be delivered by 24-hour staff on premises, staff located on premises during business hours, visiting support staff, or mobile behavioral health teams that visit residents several times per week.

Sustainability - Refers to the continuation of the project or program beyond the grant funding cycle. Sustainability answers the question, “How will you continue your project if you do not receive further funding?” The focus is on developing new and creative funding mechanisms to help organizations become more sustainable in the long term, allowing them to focus more of their resources on the important programs and services they offer.

Examples:

Agency 1: Used the 1/10th funding to secure, train, and obtain certification for employees. Having the certified staff allowed them to leverage federal Medicaid funding and apply as an authorized private insurance provider.

Through this, they established a model of success and demonstrated value to the agency, who then was able to integrate portions of the positions into general operations in the future. In addition, they identified other applicable grants for which they were eligible to apply.

Agency 2: Agency took direct action to apply for various other local funds from city to community housing and block grants. Although, they did not receive awards from all sources, they demonstrated clear action towards sustainability. The outreach engagement led them to other foundational funds for which they were able to leverage individual and organizational financial support. In addition, they actively conduct a variety of fundraising campaigns year round.

Sustainability Plan – The action plan to increase program sustainability.

Systemic Racism - A system in which public policies, institutional practices, cultural representations, and other norms work in various, often reinforcing ways to perpetuate racial group inequity.

Trauma - Trauma results from an event, series of events, or set of circumstances that is experienced by an individual as physically or emotionally harmful or threatening and that has lasting adverse effects on the individual's functioning and physical, social, emotional, or spiritual well-being.

Trauma Informed Approach - A program, organization, or system that is trauma-informed realizes the widespread impact of trauma and understands potential paths for recovery; recognizes the signs and symptoms of trauma in clients, families, staff, and others involved with the system; and responds by fully integrating knowledge about trauma into policies, procedures, and practices, and seeks to actively resist re-traumatization.

Trauma-Informed Care (TIC) - TIC is a strengths-based service delivery approach that is grounded in an understanding of and responsiveness to the impact of trauma, that emphasizes physical, psychological, and emotional safety for both providers and survivors, and that creates opportunities for survivors to rebuild a sense of control and empowerment. It also involves vigilance in anticipating and avoiding institutional processes and individual practices that are likely to retraumatize individuals who already have histories of trauma, and it upholds the importance of client participation in the development, delivery, and evaluation of services.

Treatment Sales Tax (TST) – A sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs (1 10th of 1%).

2023 NEW GRANT PROPOSAL EVALUATION WORKSHEET

INSTRUCTIONS:

Evaluation is the collection of information about a program in a systematic and defined manner to demonstrate success, identify areas for improvement and lessons learned. Every program has at least one end goal and might have several – one or more activities are required to make progress toward meeting the goal. Progress is measured with one or more objectives that might cover an output (number of something) or outcome (change over time) due to the program. The type of outcome (column D) and expected time frame for change (column E) should be defined. Objectives must follow the “SMART” guideline: specific, measurable, attainable, realistic, and time-bound (column C). Each objective should include an expected target result and completion date (“time-bound” part of column C).

New and continuing grant proposals must fill out the Evaluation Worksheet. Please replicate the last row as many times as necessary.

DEFINITIONS:

Program Goal:	A broad statement or a desired, longer-term, outcome of a program. A program can have one or multiple goals. Each goal has a one or more related specific objectives that, if met, will collectively achieve the stated goal.
Activity:	Actions taken or work performed to produce specific outputs and outcomes.
SMART Objective:	A statement of a desired program result that meets the criteria of being SMART (specific, measurable, achievable, realistic, and time-bound).
Output:	Results of program activities; the direct products or deliverables of program activities; such as number of: sessions completed, people served, materials distributed.
Outcome:	Effect of a program (change) - can be in: participant satisfaction; knowledge, attitude, skill; practice or behavior; overall problem; or a measure of return-on-investment or cost-benefit. Identify any measures that are “fidelity” measures for an evidence based practice.
Timeline:	Is the outcome expected to measure short-term, medium-term or a longer-term change? When will measurement begin start)? How often will measurement be done for reporting (reporting frequency: quarterly, semi-annual, annual, other)? How often will the program be accountable for achieving the smart objective (accountability frequency: quarterly, semi-annual, annual, other)? In what way will the data be collected (measurement period type: current quarter or year-to-date)?
Baseline:	The status of services or outcome-related measures before an intervention against which progress can be assessed or comparisons made. Should include data and time frame.
Source:	How and from where will data be collected?

In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.
