Added Second Electrical Service
Mechanical, Plumbing and Electrical Engineering Proposal

Dear Inky:

After considerable negotiation with PSE, the project will be allowed to have a second electrical service, which is not usually allowed by the utility. It is a good thing, and we are pleased to hear that the utility is being reasonable in this regard.

However, this does require additional design and construction administration work. The utility will require a separate service application, calculations, power riser(s) and the accompanying review and comment exercise for the second electrical service. Obviously we did not include that design and construction administration in our design effort or fees.

We propose additional fees of \$7,300.00 for this work during the CD phases; we think that our current fee for construction administration will be sufficient and do not request additional CA fees.

If the preceding is satisfactory, please sign the signature block below and email a PDF of this letter back to us. An AIA contract is, of course, also satisfactory. We look forward to continuing the design with the team and to successful completion of this valuable project.

Sincerely,

SIDER + BYERS ASSOCIATES, INC.
