

The freezing rain is creating chaos for Kitsap roads this morning. Several county roads are closed due to icy conditions in south, central and north Kitsap County. Multiple reports of crashes and dozens of vehicles into ditches. Our road crews are reporting they're unable to access areas due to impassable conditions and we've experienced emergency vehicles stuck on icy roads. Conditions are bad enough that we cannot get roads cleared of collisions in some areas.

Today is not the day to be out in a vehicle. Please be safe and avoid travel if at all possible.
